Version Changes in this CASS*Link* User Manual for Airlines

- 2.2 Input Services – change to file Upload process
- 4.5 Correction Report – moved to Correction Services menu

1. Getting Started

1.1 What is CASSLink?

CASSLink is IATA's global processing system for processing of Airline documents - Air Waybills and correction documents (CCA's & DCM's) for billing to IATA Accredited Agents and CASS Associates. It uses global standards in accepting electronic documents for processing and standard output reporting. The report received by your office in London or Singapore is the same as those in Sydney or Auckland.

One of the advantages of CASSLink is that, being a web-based system, the information contained in it is accessible online anywhere, provided you have a Username and Password.

1.2 Internet URL

The CASSLink website address (URL) is:

<https://casslink.iata.org>

1.3 Username and Password

The Customer Service Center will allocate a Username and Password to all IATA Airlines. For security purposes, the Username and Password are unique, with the initial Password being computer generated.

Your Username is usually based on your 2-letter country code eg. AU, JP etc., followed by your Airline three-digit numeric and two-alpha codes eg. JP_131JL, SQ_081QF or BA_125Jeff.

The initial computer generated Password, usually contains UPPER and lower case alpha and numeric characters.

Remember that both the Username and Password are **Case Sensitive**.

At initial login, all Users will be requested to change their password. (See Section 5 of this document for more details.)

If you have not received a Username or Password, contact your Customer Service Centre and ask for these to be allocated to you. Similarly, contact your Customer Service Centre if you have been locked-out of CASSLink because the Username or Password has been entered incorrectly five (5) times.

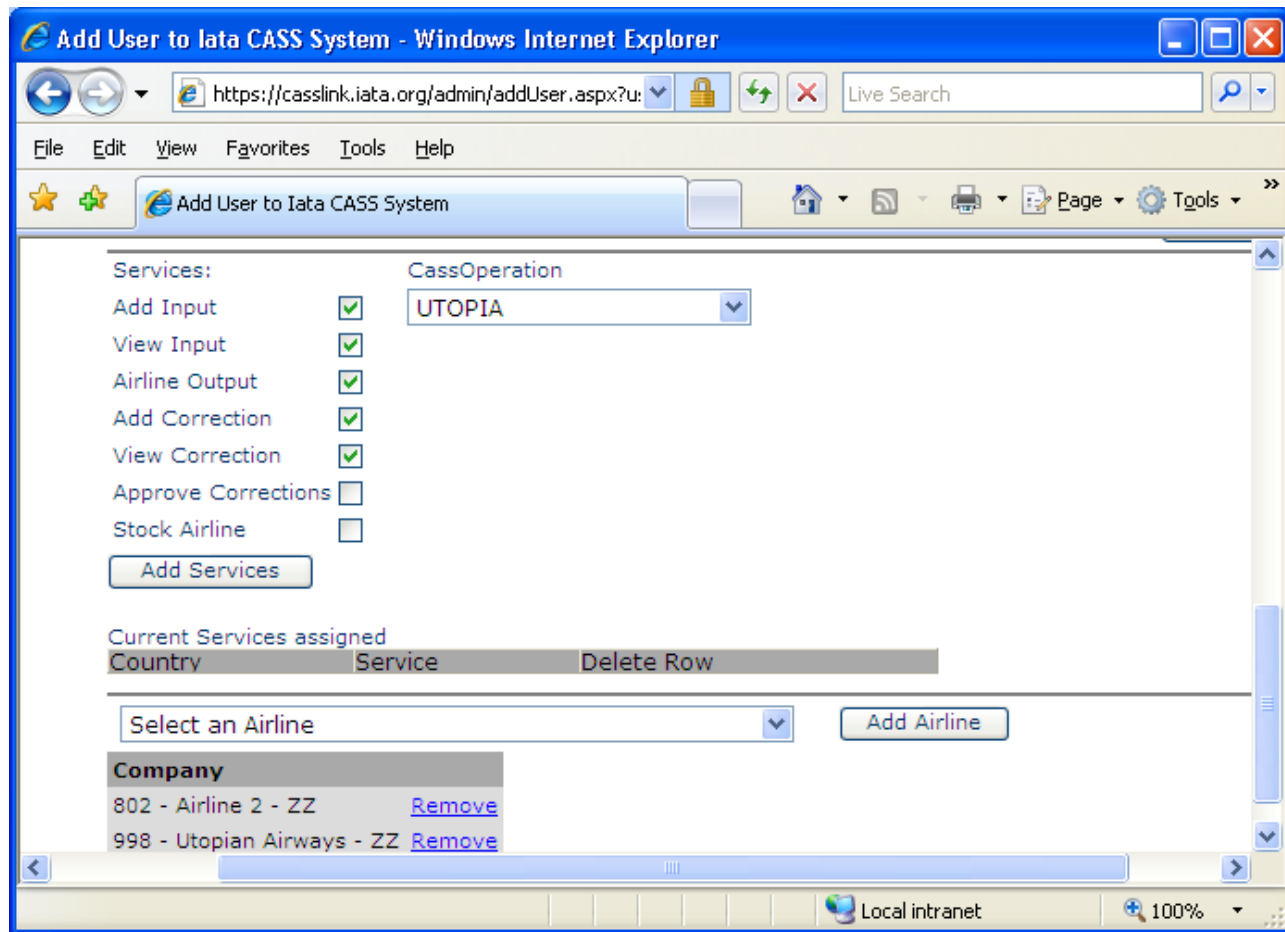

The Username allows the Airlines to:

- Link to other CASSLink "Countries" eg. Singapore, Japan, France etc.
- Access available Menu Options (see 1.4 below)

Your Customer Service Centre can also create additional Usernames for Airline users where necessary.

1.4 User Profiles and creation

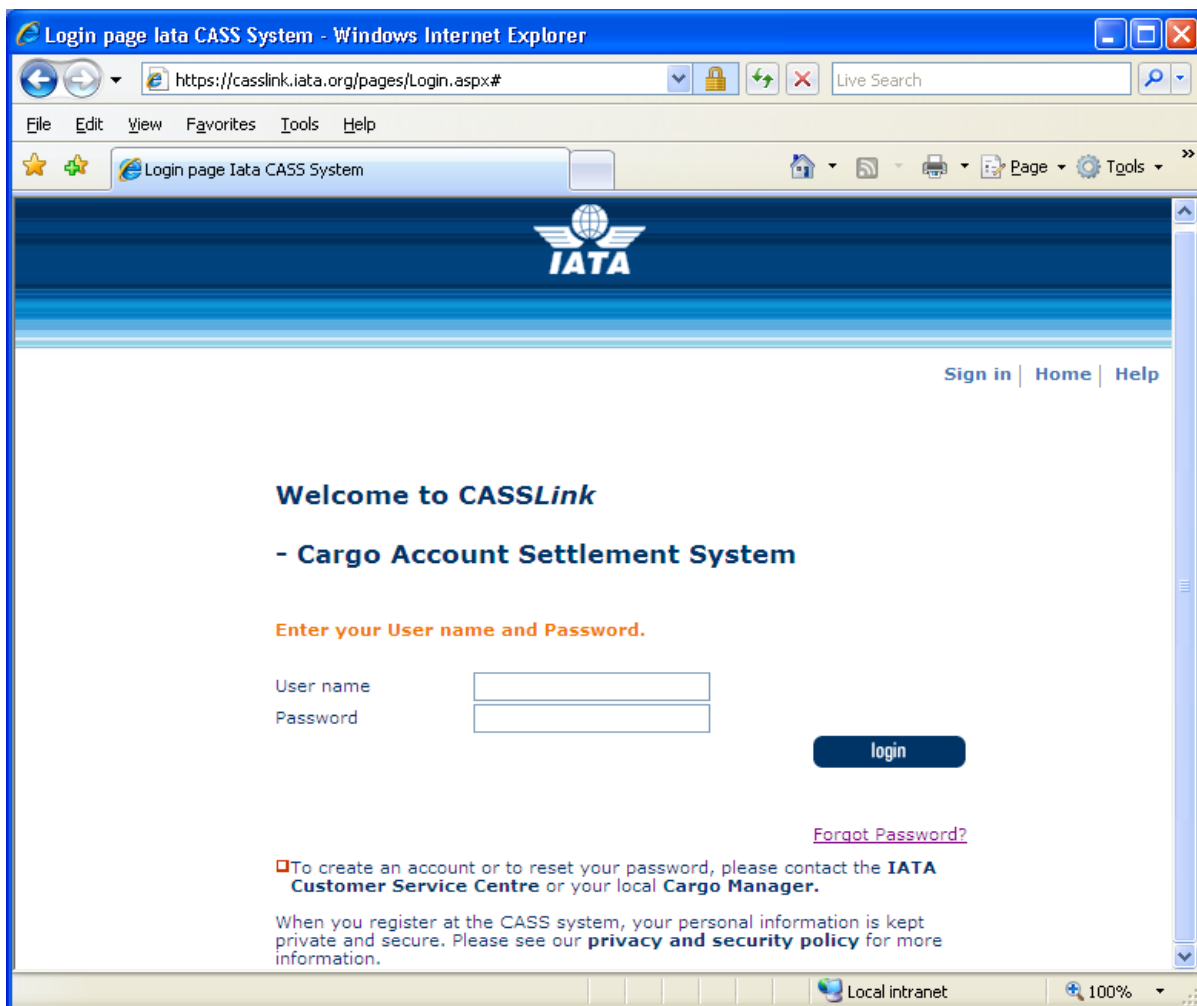

User Profiles are created in accordance with Airline wishes and requirements.

User Services are:

- | | |
|---------------------------|---|
| Add Input | – Able to input billing files |
| View Input | – Able to view loaded billing files only |
| Airline Output | – Able to view and download PDF Invoice, HOT and XLS files, use AWB History look up and Airline Toolbox |
| View Correction | – Able to view any loaded correction (Online, CCA or DCM) |
| Add Correction | – Able to create an Online Correction (but not approve) |
| Approve Correction | – For Online Corrections, able to Accept, Reject, Amend or flag a Correction Request as Airline Handled |
| Stock Airline | – Able to access the Stock Management tools for AWB Serial number allocation to Agents |

1.5 Login Page

The screenshot shows a Windows Internet Explorer browser window titled "Login page Iata CASS System". The address bar displays the URL "https://casslink.iata.org/pages/Login.aspx#". The browser's menu bar includes "File", "Edit", "View", "Favorites", "Tools", and "Help". The toolbar shows icons for home, back, forward, and search, along with a "Live Search" input field. The page content features the IATA logo at the top center. Below the logo, there are links for "Sign in", "Home", and "Help". The main heading reads "Welcome to CASSLink" followed by "- Cargo Account Settlement System". A prompt "Enter your User name and Password." is displayed in orange text. Below this, there are two input fields: "User name" and "Password". A blue "login" button is positioned to the right of the password field. A link for "Forgot Password?" is located below the login button. A disclaimer states: "To create an account or to reset your password, please contact the IATA Customer Service Centre or your local Cargo Manager." At the bottom, a note mentions that personal information is kept private and secure, with a link to the "privacy and security policy". The status bar at the bottom indicates "Local intranet" and a zoom level of "100%".

IATA

[Sign in](#) | [Home](#) | [Help](#)

Welcome to CASSLink

- Cargo Account Settlement System

Enter your User name and Password.

User name

Password

login

[Forgot Password?](#)

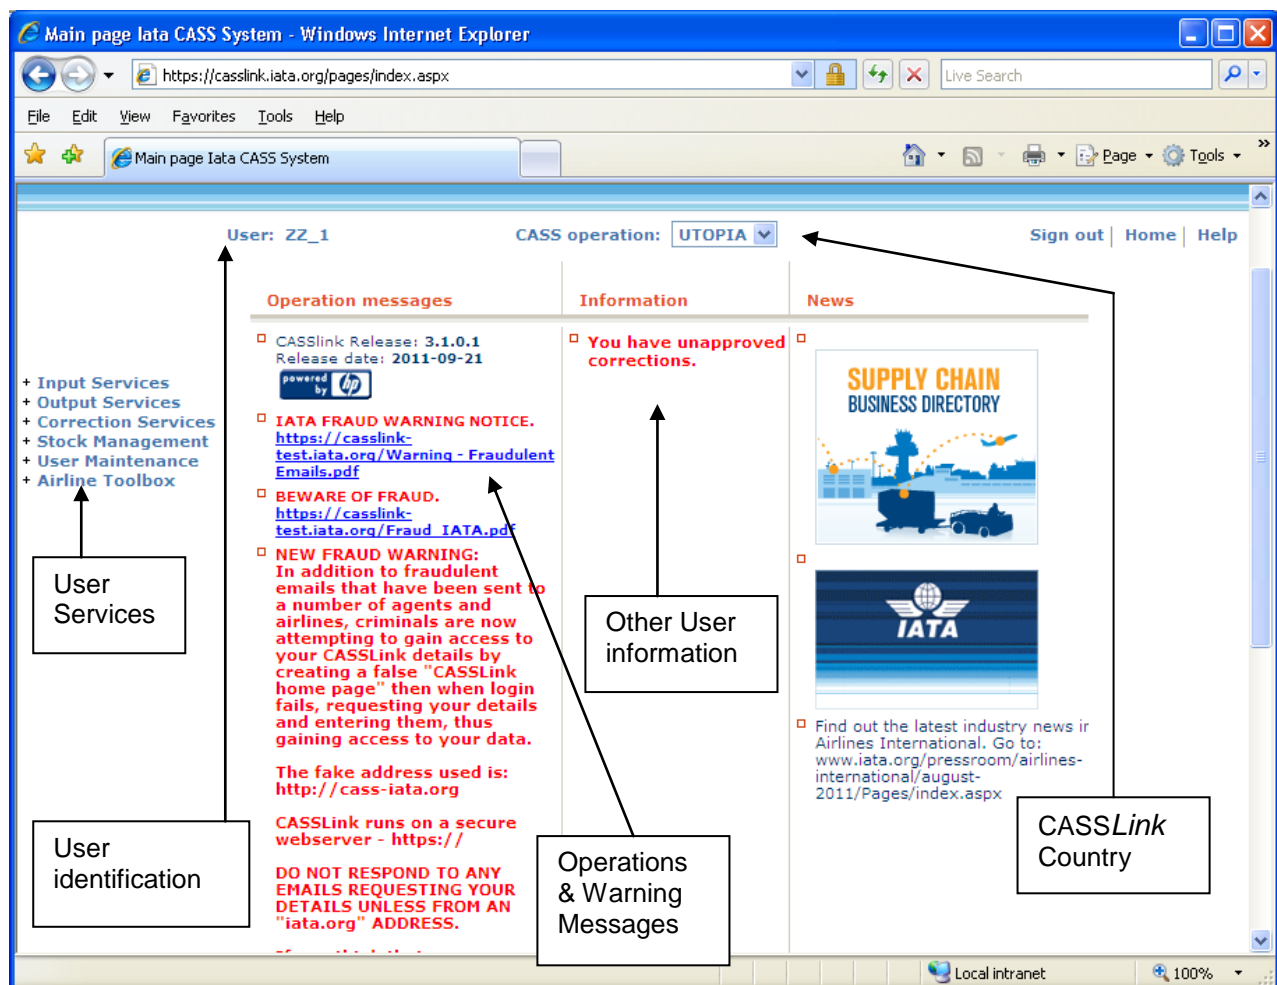

☐ To create an account or to reset your password, please contact the **IATA Customer Service Centre** or your local **Cargo Manager**.

When you register at the CASS system, your personal information is kept private and secure. Please see our **privacy and security policy** for more information.

Local intranet 100%

For access to CASSLink, enter Username and password, remembering that both are Case Sensitive.

1.5 CASSLink Home Page

The CASSLink "Home" page contains information on the following:

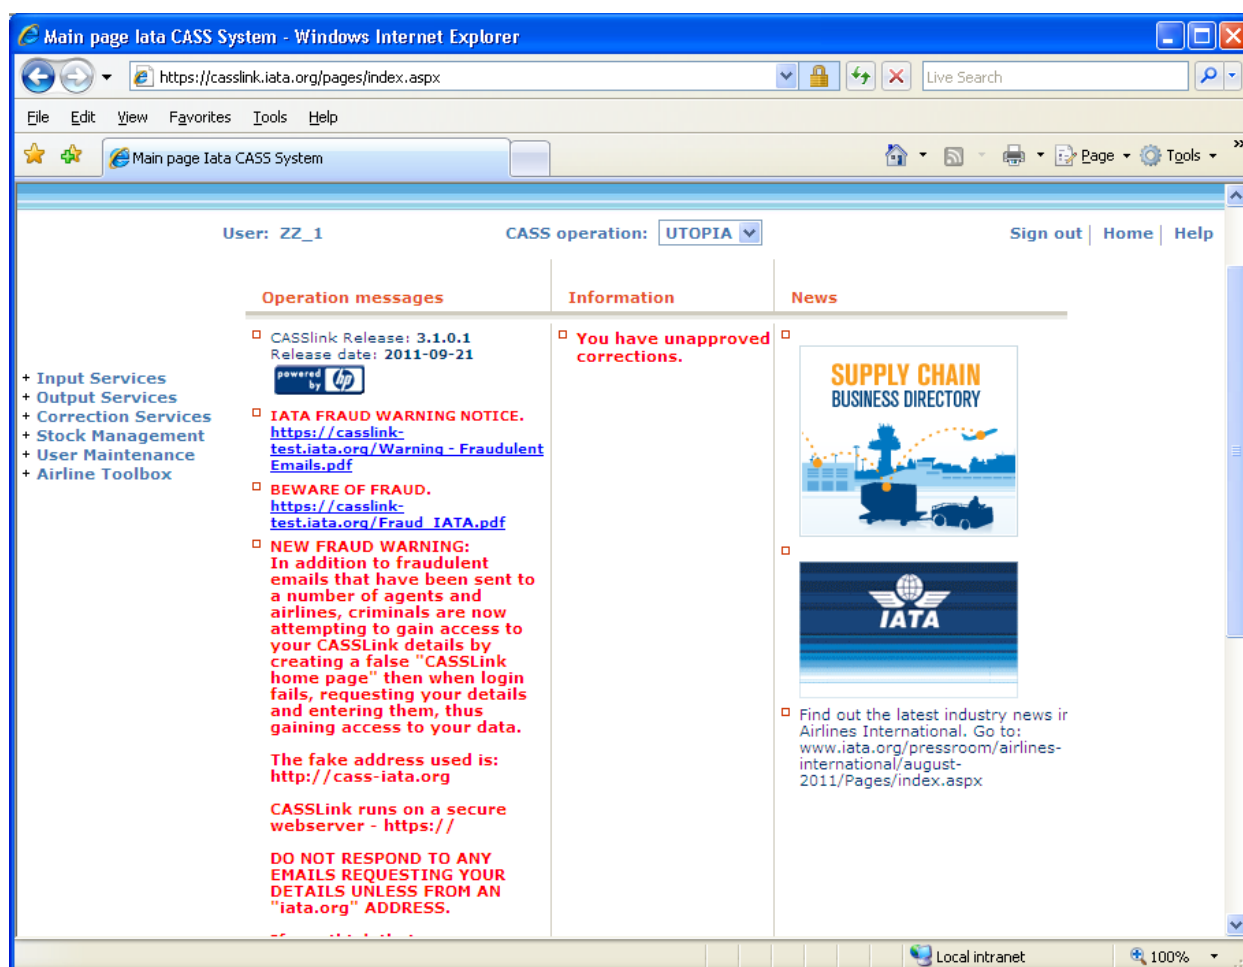

- Which User is logged in
- The CASSLink Country being accessed
- Any Operational Messages, such as scheduled maintenance and system downtime
- User Information, possibly more relevant to Airlines and the Customer Service Center.
- Menu options associated with the User profile.

The Home page may differ from User to User or for different Operations, depending on the Service options assigned in the User Profile and the different Operations and Information Messages.

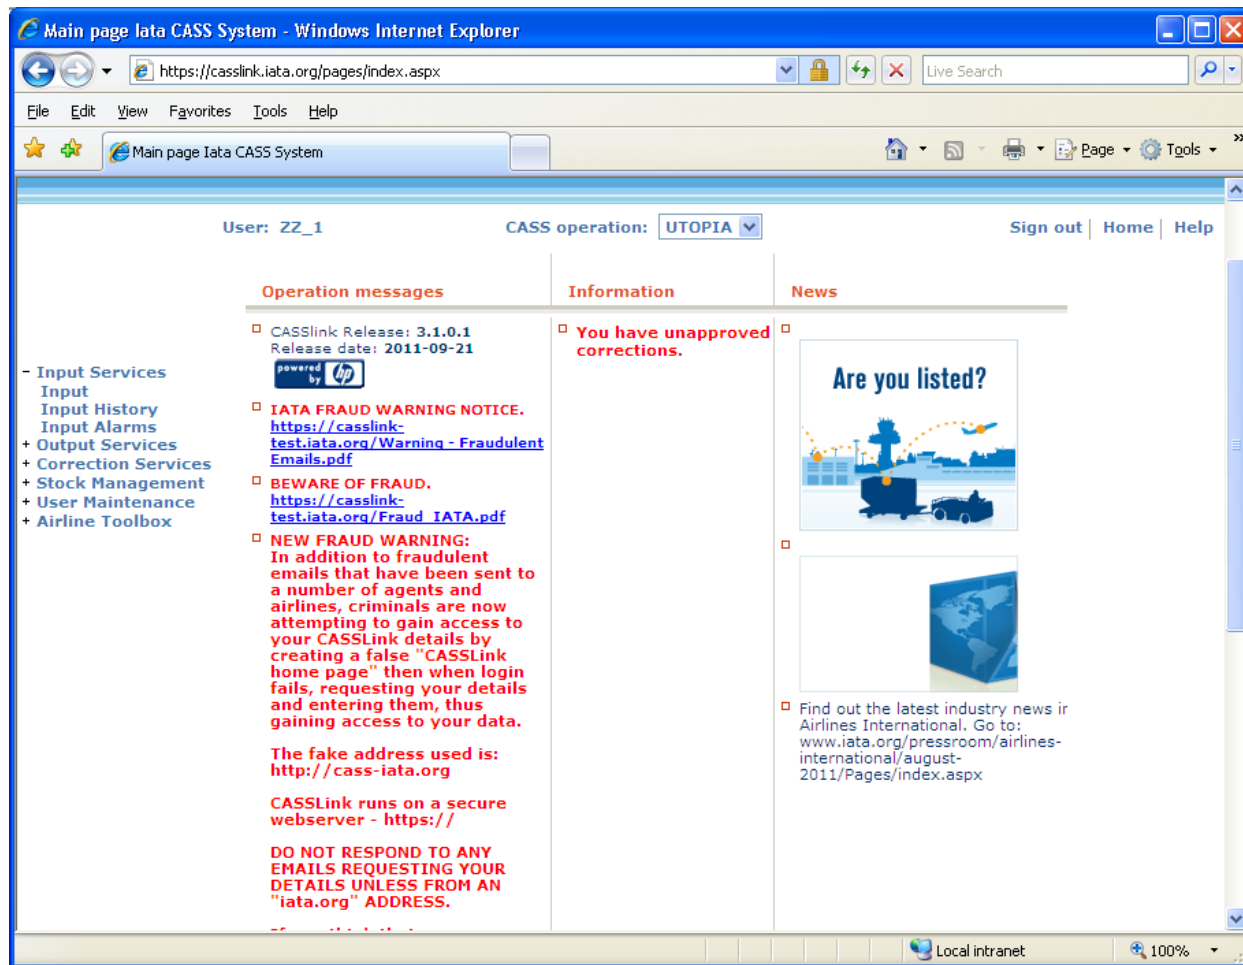

1.6 CASSLink Services Menu

Once you have successfully entered the CASSLink website using your Username and Password, there are six (6) menu options for the CASSLink User to choose. These can be found on the left-hand side of the CASSLink screen. These Menu options are:

- Input Services
- Output Services
- Correction Services
- Stock Management
- User Maintenance
- Airline Toolbox

2. Input Services

2.1 Input File

The Input File module is used by Airlines and Customer Service Centers to “Upload” Airline billing information into CASSLink.

The billing file is a .txt file containing:

- A Header record
- AWB records and correction documents (CCA & DCM)
- A Trailer Record

Details of the standard file structure may be found in the CASS Technical Specifications Handbook, which is available from IATA (www.iataonline.com)

See example of Airline billing file below.

2.1.2 Data File Name

There is no correct name convention for the Input Data File. One suggested file name format is:

EYYCCAIR.PPNN

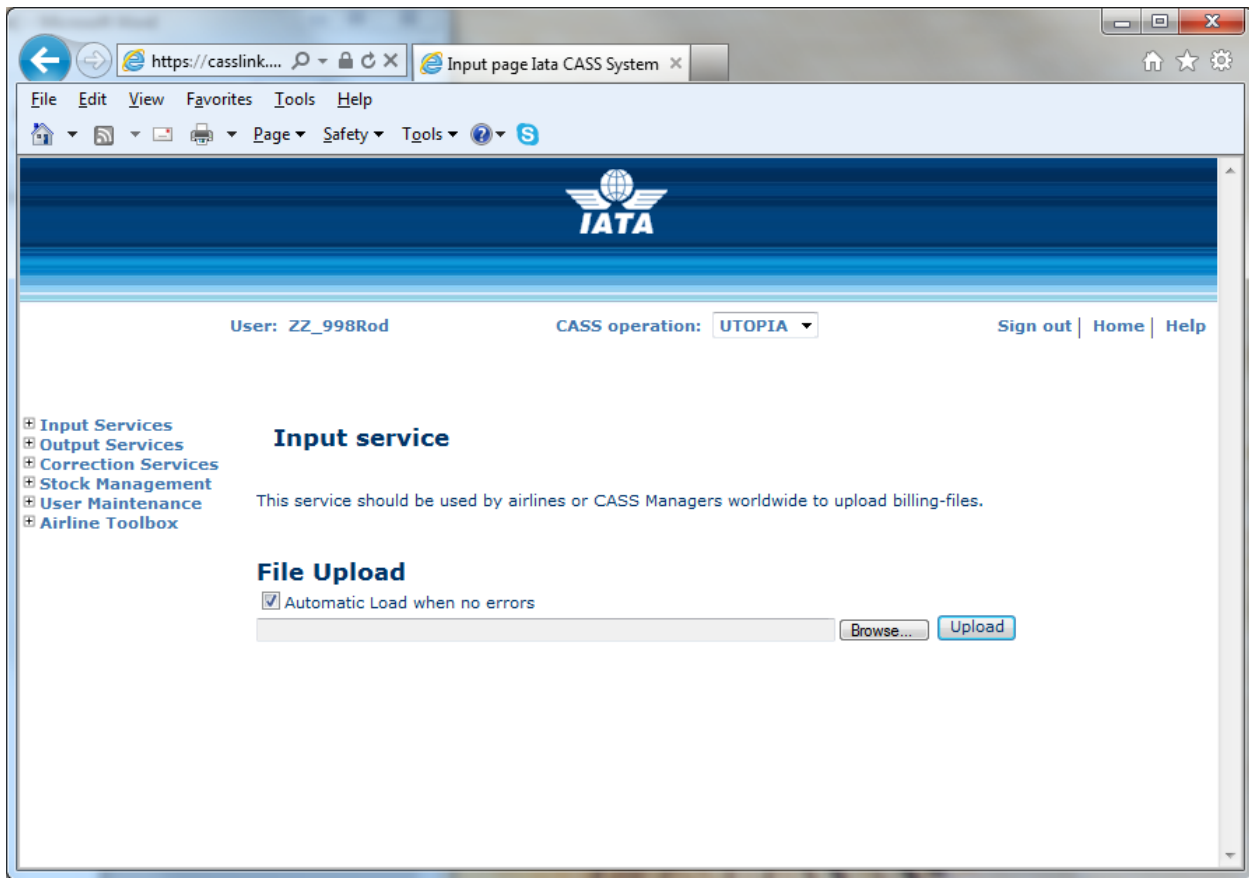

Eg. E12AU998.021

Where:

E	=	Export
YY	=	year (12)
CC	=	Country code (AU, NZ, FJ, SQ, JP etc)
AIR	=	Airline numeric code
PP	=	Billing Period number (01, 02,...,24)
NN	=	number of file, usually corresponding to the "File number" in the Header Record (above)

By using this or a similar file name to store and manage files, the relevant Year, Billing Period and country are easily recognized. The need to easily identify country and Period information is especially relevant where Airlines or GSA's load files for multiple Airlines or CASSLink operations from a single central point.

2.2 Input

With conversion to the global CASSLink system, Airlines are encouraged to “Upload” their own billing file or files into the CASSLink system for processing each billing period. Further, Airlines with access to multiply CASSLink “Countries” can load their billing files as one single combined ZIP file input.

CASSLink will check the validity of the input file to ensure that the format complies with the requirements defined in the CASS Technical Specifications Handbook, as well as checking for duplicates and other data errors.

Options:

The default setting for File Upload is to perform “Automatic Load when no errors”. By ticking this box, when there are no errors (Rejected items), the file will be automatically loaded.

If there are errors found in the file, the file load will proceed only to a Validated status. This then allows the User to interrogate the Rejected items and where necessary, fix the errors before proceeding to complete the Loading process.

When the Automatic Load when no errors box is un-ticked, the file will only be loaded to Validated Status.

Note – Warning messages are not “errors” and will not stop the Loading process.

Always examine the resulting Validation Report issued by the system as part of the File Upload process.

The Validation Report can be viewed in the Input History page or by viewing a copy of the Report, sent by email to the user’s email address. (If you do not receive the Validation Report email,

contact your Customer Service Center and verify that *CASSLink* contains the correct email address in the User profile.)

The Validation Report provides details of the file that has been validated, specifically detailing any errors, thus giving the user the option to “reject” the file upload, correct any errors and re-load the file.

AUTOMATIC LOADING – performed when the box is ticked and there are no errors/rejected items found in the file.

VALIDATE ONLY – performed when the “Automatic Load when no errors” box is un-ticked when loading the file.

BROWSE – Allows user to search for the file to be “Loaded” on the computer hard drive.

UPLOAD – After selecting the file for loading (Browse) Click on **Upload** to load the file into CASSLink.

2.3 Input history

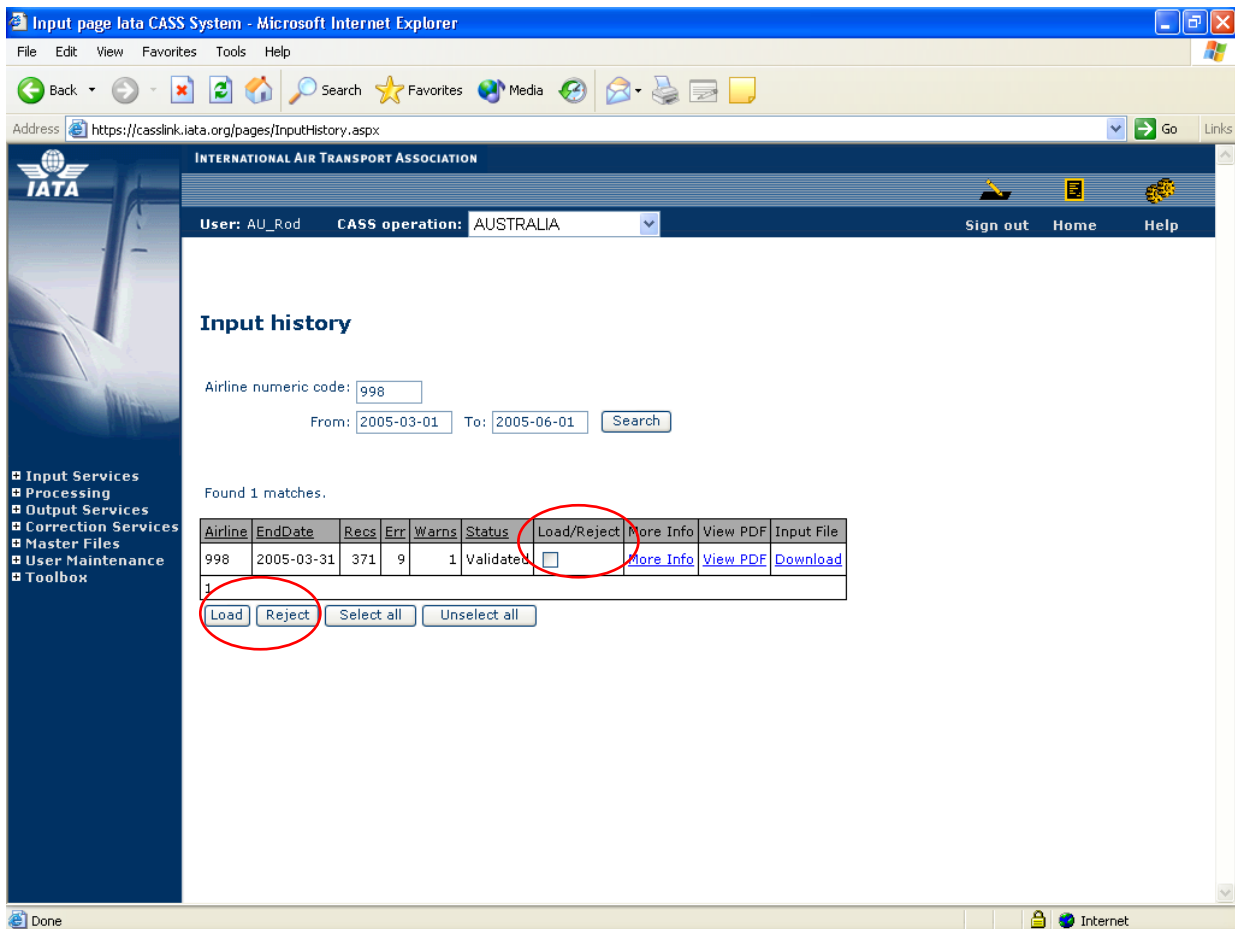

The listing in Input History identifies:

- the Billing period (by Period end-date)
- the number of Records
- number of Errors
- number of records with Warning
- status of the file upload
- More Info (File details)
- Validation Report (ViewPDF)
- Download (copy of file loaded into CASSLink)

The search features on the Input History page allow for Users to:

- Specify the Airline information required, especially for Users that load files for more than one Airline, such as GSA's.
- Refine the Date range of the search

Note: The date displayed in the search results is that date entered in the Header Record of the input file. Therefore, if the period "End Date" is not entered correctly, the date range search may not list the required file. This does not mean that the billable documents will not be processed in the intended billing period as CASSLink uses the document "execution date" as the date for billing the document, but that the file details will not be viewed with other files loaded for the same billing period.

- Airline Numeric Code optional search for GSA's loading files for more than one Airline.
- Change date range to refine the date range to be searched and click on **Search** button.
- View the file validation details by clicking on "View PDF". This will open a PDF report that will detail any errors and what has been accepted, rejected or accepted with a "Warning".
- If File is OK to be Loaded, tick the **Load/Reject** box then Click on the **Load** button.
- If the file contains errors that can be corrected, tick the Load/Reject box and click the **Reject** button.

2.4 Loading Files

The following steps are the procedure for loading files into CASSLink for processing. The loading of files **MUST** be completed before the CASS Reports Production Date (as per the CASS Reporting Timetable).

Failure to complete the File Upload before this date may result in the file not being captured for processing in the required Billing Period.

2.4.1 Steps for Loading Files

Prepare the file to be uploaded. This must be loaded before the cut-off date for EDI Data Upload as shown in your CASS Reporting Timetable. Save the file for Upload.

- Log into CASSLink
- Select Input Services, then Input
- Select **“Browse”** and search for the saved file (prepared in step 1 above) for the particular Billing Period.
- Select or un-tick the **“Automatic Load when no errors”** as desired to either Load automatically or load to Validated Status.
- Select **“Upload”**. A message should appear at the end of the load sequence indicating **“File Upload Successful – Please check the Validation report”**.
- If the file is loaded successfully, select **Input Services**, then **Input History**
- All files entered into CASSLink **in the date range selected** for your Airline will be listed.
- If there are no errors found, the file may have been automatically loaded (if this is the option selected).
- If there are errors or the option selected was to Upload to Validated Status only, select **View PDF** to look at the Validation Report. All errors will be listed, as well as totals on the bottom of the report. If the file contains errors that can be corrected, the User can either **“Load”** the file with the errors, or **“Reject”** the file so that the errors can be corrected and re-load the file (back to step 3).
- To either **“Load”** or **“Reject”** the file, select the **“tick-box”** under **“Load/Reject”** and either select the **“Load”** or **“Reject”** boxes at the bottom of the file list.

2.5 Load Status

When uploading files to *CASSLink*, a list will be available including the status of the “Upload”. The following status will be displayed:

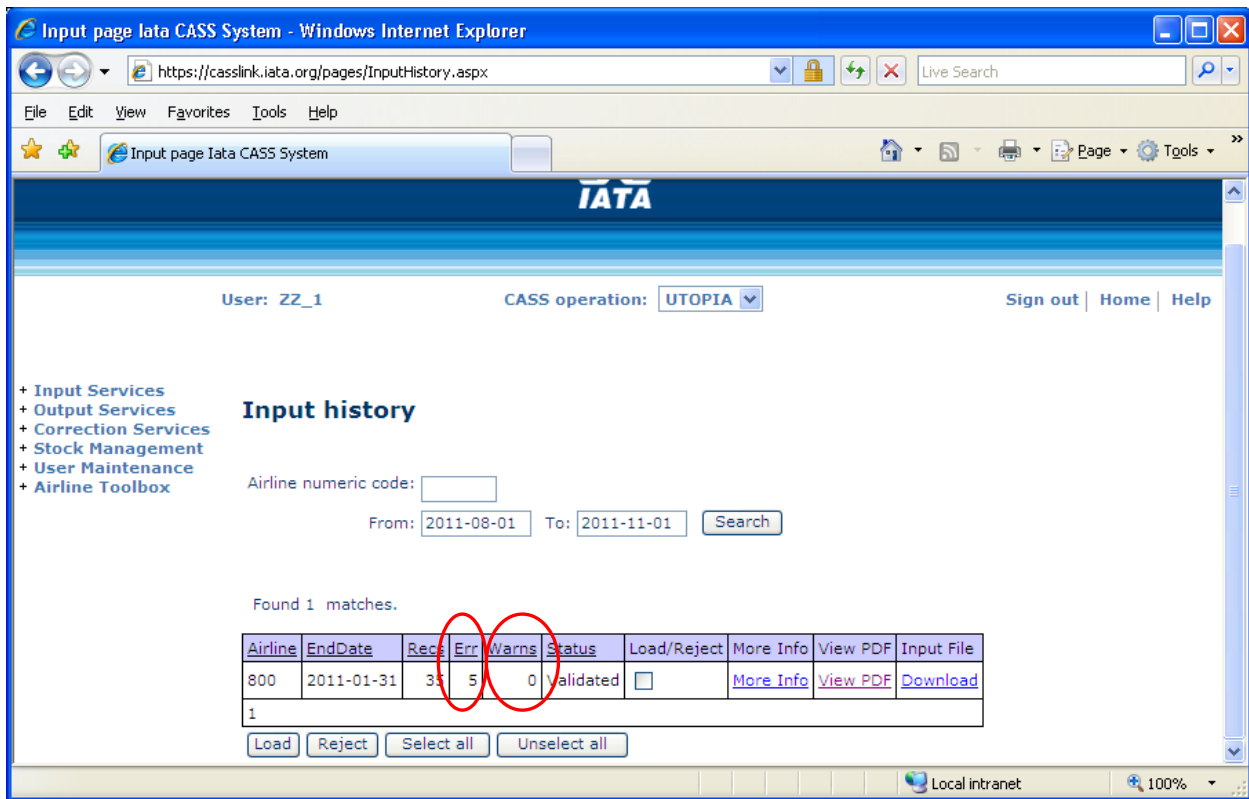

- Receiving - Received
- Validating - Validated
- Loading - Loaded
- Rejected

When the file has been successfully loaded, more information is available including the Validation Report in .PDF format. This Validation Report is also emailed to the uploading User (the email address used is recorded in the User Profile. If the Validation Report is not received, contact your Customer Service Center and verify/update your User email address).

If, after loading a file, the Status does not change from Receiving, Validating or Loading to Received, Validated or Loaded after an acceptable period of time, contact your Customer Service Center. At certain times, congestion in the *CASSLink* system may result in delays in completing the file Upload.

2.6 Accepting or Rejecting Files

When the Input File has been uploaded if the “Validate Only” box has been “ticked”, the file can be loaded or rejected. The file load will be displayed on the Input History screen as below.

Errors – Records that have errors and have been rejected

Warning – Records that have been accepted, but may contain contrary data eg. be for “future period”, or “High Amount Found”

The **Input History** screen displays:

- Airline code
- Period end-date
- Records
- Errors
- Warnings
- Status
- Load/Reject “tick” box
- More Info
- View PDF (Validation pdf report)
- Input File (download)

2.7 File Upload Errors

Errors may occur when loading files. These include:

Error Message	Possible reason or correction
"One of the files submitted is already uploaded".	This may be because the file already being loaded or the new file has the same file number in the Header Record. Open the file in Notepad to check the file number.
File not found or one of the submitted files is of incorrect input format	Open the file in Microsoft Notepad (or similar) and examine the file for any unusual characters. In particular check the Header Record and ensure that the dates and file number are numeric characters only, especially that there are "0's" (zero's), not "o's" (alpha). Also ensure that the Header Record is on the first line of the file and the first line is not blank.
"The header contained dates that were incorrect"	Check the Header Record to ensure dates are correct.
No apparent reason can be found for the load failure.	Retry the upload
"BillingDate : O6-04-20 is not nummeric."	There is an "O" (Oscar) instead of a "0" (zero) in the date field of the Header.

2.8 Sample Validation Error Report

IATA CARGO ACCOUNTS SETTLEMENT SYSTEM DATA VALIDATION IRREGULARITY REPORT DATE: 18-APR-05 PAGE: 001

44 RECORDS VALIDATED - HEREOF		9 FOUND WITH ERRORS AND		1 FOUND WITH WARNINGS AND		34 FOUND WITHOUT REMARKS			

2.8.1 Index of Sample Validation Error Report

- 1 - Country Code and Airline identification (numeric code)
- 2 - File number (relevant if there are more than one file for the Airline)
- 3 - Billing period end-date
- 4 - Document details – record type, AWB serial number, Agent code
- 5 - Error details – Type of error and explanation
- 6 - Error status – Rejected, Warning
- 7 - Record count – number Validated (documents on the file), number found with Errors, number found with Warnings, number found without Remarks (no errors or warnings)

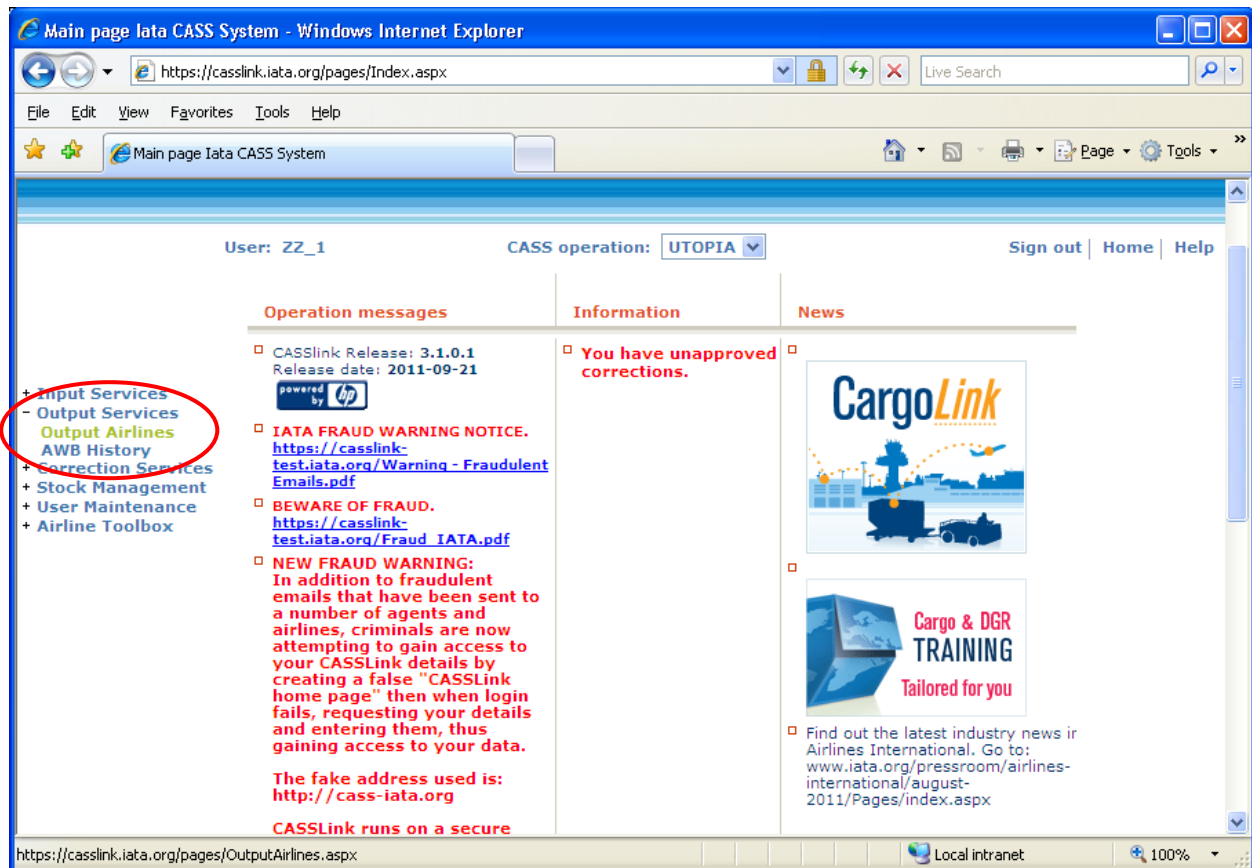

2.9 File Load Validation Errors

Error	Reason
Weight Charge must be filled	CASSLink will not accept a “Revenue” AWB, CCA or DCM record without a weight charge (\$)
Gross Weight may not be zero	CASSLink will not accept a “Revenue” AWB, CCA or DCM record without a value in the weight area
Modulus 7 check failed on Agent Code	Check the agent code
Modulus 7 check failed on AWB NR	Check the AWB serial number
Airports may not be both domestic	CASSLink will not accept a “domestic” AWB.
Airport in adjacent country is not coded for Agent	Departure code is an Airport in another country, or incorrect
Currency not found	Incorrect currency code has been entered
Agent-code not found	Agent code is not in CASS
Agent office does not participate in CASS anymore	Agent is no longer a valid CASS agent or location ie. “Stopped” or “Deleted”

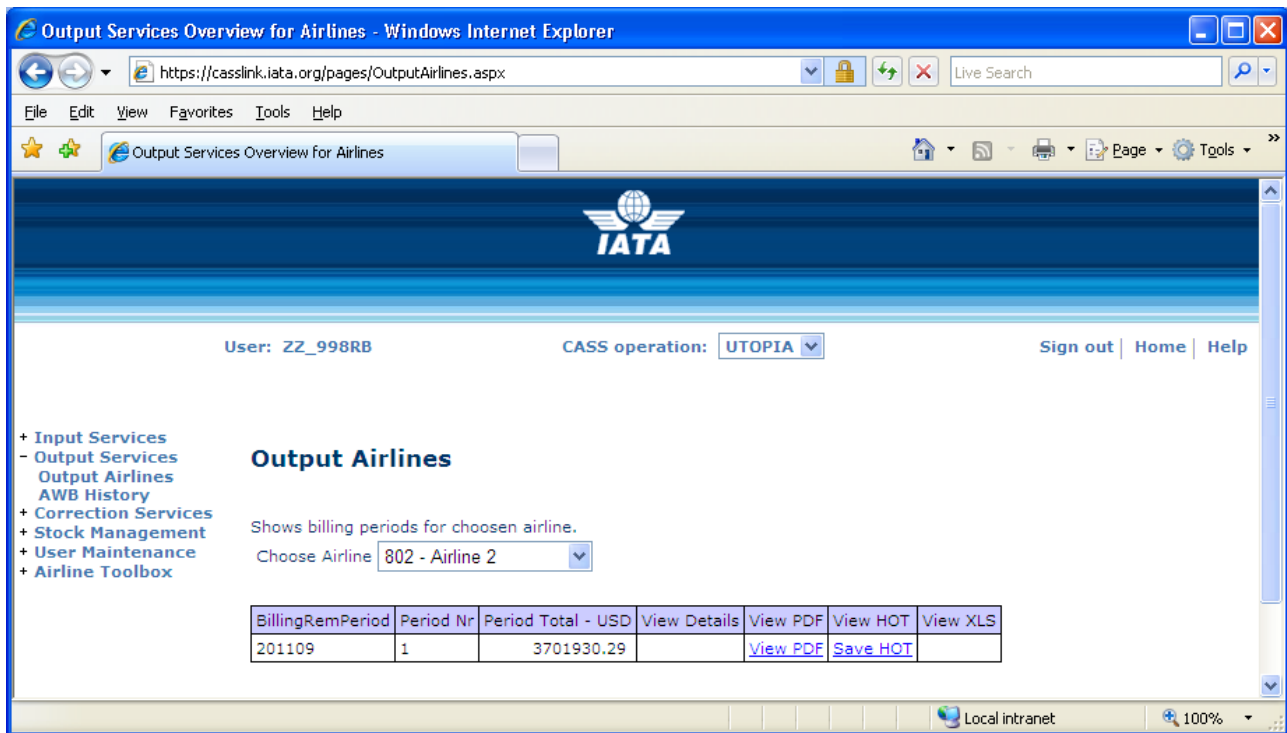

Warning	Reason
“Warning high amount found”	AWB value appears too high to system and should be investigated
“Warning AWB record issued for future period”	AWB has been accepted but will be billed in the future billing period that relates to the Execution Date on the AWB

3. Output Services

Output Services contains two (2) sub-menu's for Airlines – Output Airlines and AWB History.

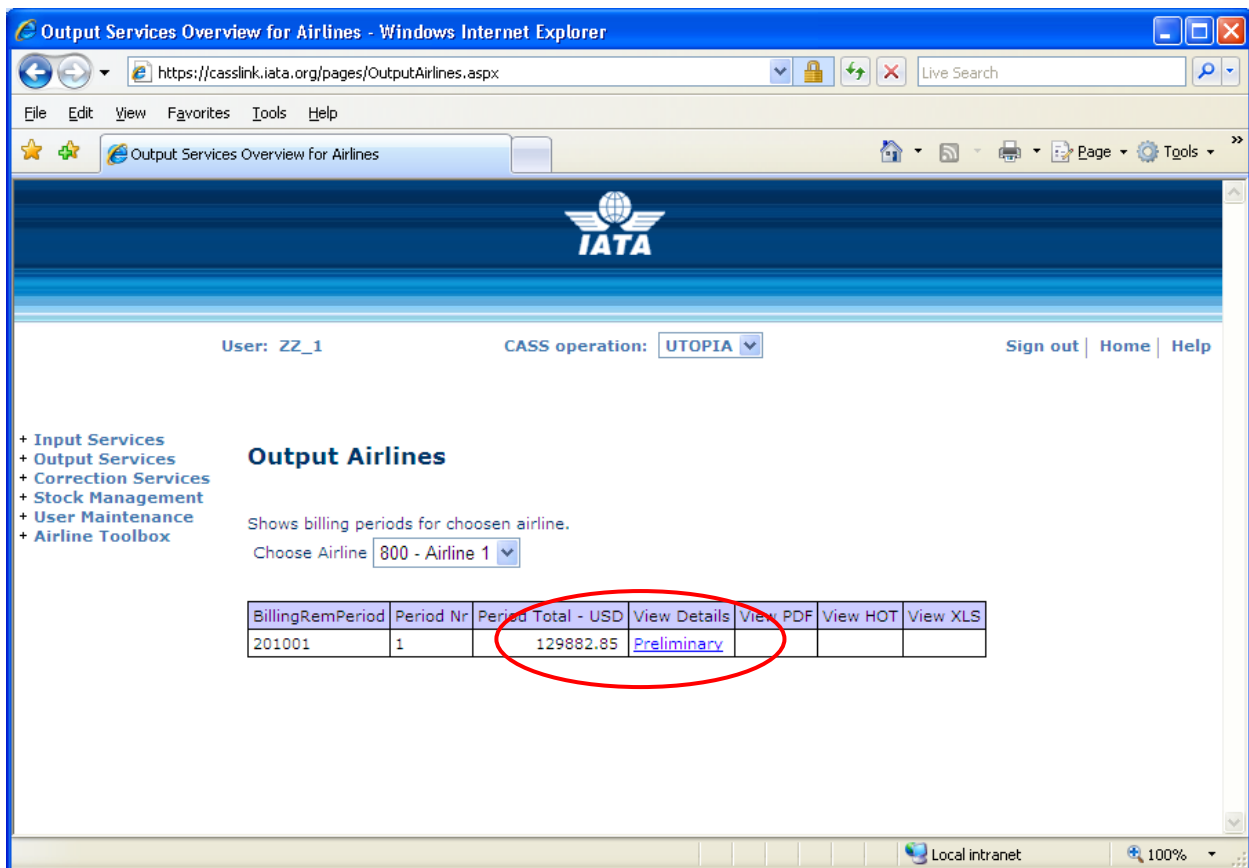

3.1 Output Airlines

The Output Airlines screen contains the following information:

CASS Operation –	Select the country required. Only used where the Airline is linked to operations in other CASS/CASSLink countries.
Choose Airline –	Will list your Airline name. Where the Airline handled by a GSA and is linked to more than one Airline, use the drop-down arrow to view another Airline.
Billing RemPeriod –	The Billing Period represented as YYYYPP. Each CASS operation has twenty-four Billing/Remittance Periods each calendar year. Check your CASS Reporting Timetable to see the corresponding dates for the Period.
Period Nr –	The number of the Period processed. Check your CASS Reporting Timetable to see the corresponding dates for the Period.
Period Total – Currency –	The total amount billed for the Period in the local billing currency. This amount will be reflected in the output reports (below).
View Details –	Preliminary billing data loaded by Airlines for the next Billing Period to be processed (see below for more details).

- **View PDF** = Cargo Sales Invoice/Adjustment & Export Billing Statement reports produced in PDF format. Airlines will need Adobe Acrobat reader to open this report. Adobe Acrobat may be downloaded free from the Adobe website: <http://www.adobe.com>
- **View HOT** = Airline HOT (Hand-off-Tape) in a text format. Winzip is required to open these reports.
- **View XLS** = Airline Spreadsheet Report (Microsoft Excel format).

All Airline output reports produced are available in Output Airlines.

Storage of CASSLink Reports for CASS Billing Periods is for a period of ten years availability (online and external archive) to meet taxation requirements in many countries.

In View Details, Airlines can view the “Preliminary” or projected amount being invoiced to Agents, before the CASSLink reports are produced. Details can be viewed after an Airline has “uploaded” their billing data, but only after the daily processing has been executed, with details usually available on the next working day after the billing file has been uploaded by the Airline/s.

Each CASSLink operation will have different timetable deadlines for the Airline upload of billing files. Check with your Cargo Manager, Customer Service Centre or published CASS Reporting Timetable to see when files are due to be uploaded for the relevant CASS Billing Period.

These “Pre-billing” details may be used to request a “Correction” (see Section 4 – Correction Services) from the Airline/s should a billing error be found. This could ensure that any billing errors could be found and corrected **before** report production is completed.

3.1.1 Digital Signatures

In a number of EU countries it is now a requirement under Directive 115, that *CASSLink* Invoices are digitally signed to ensure authenticity and security. Invoices are now being signed for a number of EU countries.

Output is not available after Processing until the Invoices are signed.

For procedures to load the Trust Certificates into your adobe viewer application, please see Appendix C.

3.2 Output Reports

Airline Output Reporting may be received in three (3) formats:

- PDF Report
- HOT File (flat or text file)
- XLS Spreadsheet

3.2.1 PDF Report

The PDF Report is the standard output report to all Airlines.

The PDF Report may be downloaded directly from *CASSLink* when billing production has been run. Additionally, the Customer Service Center may email the PDF report to all Airlines at the end of Billing Report Production. The Airline may nominate up to four (4) recipients to receive this Report at the completion of the *CASSLink* Reports Production cycle. Advise all intended recipient email addresses to your Customer Service Center.

The PDF document contains three (3) reports.

- The **Cargo Sales Invoice/Adjustment** report shows all Air Waybills and correction documents (CCA or DCM) billed to each Agent location. Each Agent location is reported separately and in numeric order.
- The **Export Billing Statement** provides a summary of amounts owed to or from all Agents for the Billing Period. The total amount due to or from Airlines for the Billing Period is shown as "Net Due Airlines" or "Net Due Agent" at the bottom of the report.

The left screenshot shows a Billing Statement with columns for amount, ID, and a group number (01, 02, 03). The right screenshot shows the Output Services Overview table with columns for BillingRemPeriod, Period Nr, and Period Total - EUR. Red arrows indicate the mapping between the two tables.

BillingRemPeriod	Period Nr	Period Total - EUR
201110	3	2569.36-
201110	2	132479.71
201110	1	192397.74
201007	2	15697.60
201007	1	23491.28

The Billing Statement is grouped in processing period order and will match the Output Services screen

- The **Auto-Approved corrections** report provides a summary of any corrections auto-approved by CASSLink in the Correction Period. (This report not produced in a Billing Period)

The Customer Service Center may also include **important information** or news in a “Coverpage”, at the beginning of the PDF Report. Please check these every Period.

3.2.1.1 Additional Text on Airline Invoice

The screenshot shows the 'Airline preferences Iata CASS System' interface in a Windows Internet Explorer browser. The 'Options' tab is active, displaying a form with various settings. A red oval highlights the 'Additional Text on invoice' field, which contains the text: 'This is where Airlines can have their own individual message on their Invoice'.

Additional Text on invoice'

This is where Airlines can have their own individual message on their Invoice

For CASS Operations that have been migrated to the New format reporting, there is the facility for Airlines to request to have a message on their invoice (as opposed to the generic message entered in Process Text that appears on every Invoice or Billing Statement).

The Service Centre or Cargo Manager may enter a message requested by an Airline. Messages could be advising new destinations, change of address, new contact details, new services etc.

3.2.2 HOT File

The Hand Off Tape (HOT) is so called because originally, this file was made available to users on a magnetic tape or floppy disk. The term has stuck and the universal generic term for the flat or text (.txt) billing file is HOT file.

The HOT file is used by agents and airlines to reconcile the billing data in their accounting systems.

The HOT file can be emailed to a nominated email address (advise your Customer Service Center), or downloaded from CASSLink as a "Zipped" file. The HOT file itself has a file extension name of .HOT. To view this, open the file using Microsoft Notepad or a similar program.

The resulting HOT file output contains a string of data as below:

A screenshot of a Notepad application window. The title bar at the top is blue and contains the text "02301322122.HOT - Notepad" on the left and standard Windows window controls (minimize, maximize, close) on the right. Below the title bar is a menu bar with the options "File", "Edit", "Format", "View", and "Help". The main text area is filled with a large block of text, which appears to be a list of identifiers or codes. The text is organized into columns, with some lines starting with "AAAAU", "AWM", "DCD", "CCC", "TTT", and "AUU". The text is black on a white background. The window has a standard Windows XP-style border and a scroll bar on the right side.

Your Cargo Manager can assist with the interpretation of the data fields in this file. In addition, the CASS Technical Specifications Handbook may be downloaded from IATA website (www.iata.org, then search for CASS Technical Specifications Handbook) to further assist your technical staff. This is a compressed (zipped) file. Winzip is therefore required to open this file. To obtain a copy of Winzip, go to www.winzip.com.

3.2.3 XLS File

In addition to the PDF and HOT files, a spreadsheet “xls” (Microsoft Excel format) report is also available to Airlines that require this report. Please consult your Customer Service Center to activate this report.

Microsoft Excel - 200523.xls

File Edit View Insert Format Tools Data Window Help Acrobat

Font: Arial, 12, Bold, Italic, Underline, Text Color, Background Color, Paragraph: Left, Center, Right, Justify, Bullets, Numbering, Indent, Decrease Indent, Increase Indent, Decre

The .xls report contains Billing and Invoice summaries for the requested location. The xls report output may vary in different countries. This report is not emailed to subscribers and therefore must be downloaded directly from CASSLink each Period or as required.

3.3 AWB History

The billing history of any Air Waybill processed or to be processed in CASSLink can be searched via “AWB History”.

Enter the serial number of the AWB. Select the Airline and then click “Search”. CASSLink will then search the database to find the record.

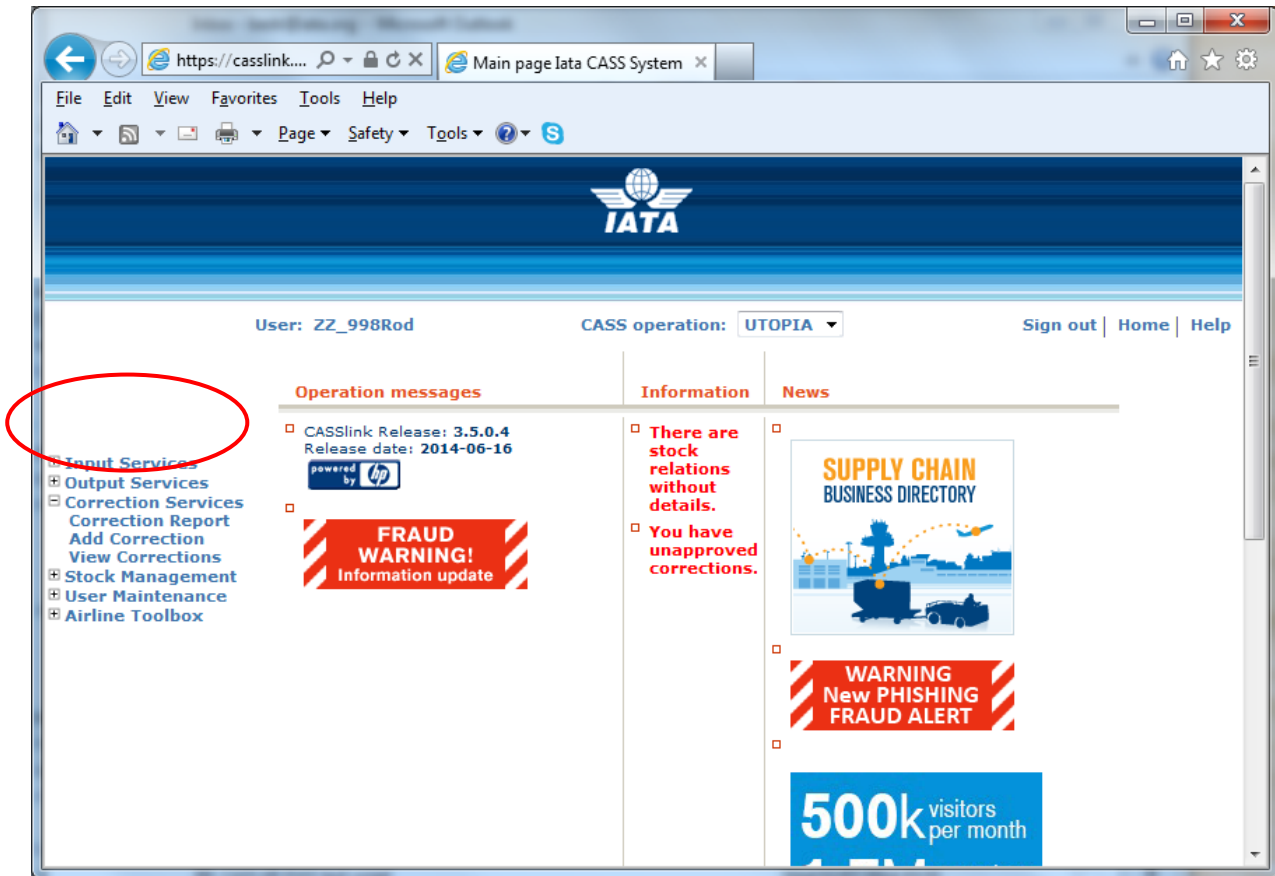

The record is then displayed and contains the following details:

- Port of Origin
- Destination port
- Gross Weight – may be Chargeable weight, depending on the value entered
- Pre-Paid Weight and Valuation charges – both charges combined
- Pre-Paid Other Charges due Airline
- Charges Collect Weight and Valuation charges – both charges combined
- Charges Collect Other Charges due Agent
- Discount/Incentive – based on Net/Net Sales amount
- Commission – if payable by the Airline
- Net Payable ex VAT – total amount due to Airline/Agent
- Correction Number – where a correction document has been processed
- Execution Date – of Air Waybill
- Input Date – date document input by Airline
- Processing Period – CASS Billing Period. May be “Correction” period
- Airline
- Agent – Correction processing may be effected to different Agents

Where a Correction has been processed, either CCA, DCM or online, the “Total” at the bottom of the report will show the net values paid by/to the Agent for the AWB after addition or deduction of correction values (without Taxes)

Note - Tax amounts are not displayed.

4. Correction Services

4.1 Add Correction

In CASSLink there is the facility for both Airlines and Agents to “Add” an Online Correction for an AWB.

Procedure:

- Go to Menu - Correction Services
- Select Add Correction
- Select the Agent code from the drop-down list
- Select the Airline from the drop-down list
- Enter the AWB Serial number
- Click the “New” button

The details of the Air Waybill as billed in CASSLink will automatically be displayed on the electronic DCM in the Original/Incorrect sections (right-hand side), provided the Online Correction is being entered within the CASS Storage Period. The Storage Period differs from country to country and can be a little as six (6) months to five (5) years (60 months).

Contact your local Cargo Manager of Customer Service area to find out more about the Storage Period in your CASS.

Note that the Original/Incorrect amounts from the last billing data processed are always shown as a Reversal of the Original billing to the Agent.

The Revised/Correct details must be entered correctly before the correction will be accepted by CASSLink:

- Weight
- Weight & Valuation Charges
- Commission & Incentive
- Charges Due Agent (Collect only)
- Charges Due Airline
- Reason for Correction

Correction Form

Status: New Number: C99804

Agent's code: 0230013 - 2623 Airline's Code: 998

AWB No.: 31977116 Origin: BNE Destination: LHR Date of AWB Issue: 2005-12-02

Air Waybill weight and/or charges have been corrected/added as follows:

Weight Unit	Revised/Corrected Weight	Original/Incorrect Weight
<input checked="" type="radio"/> Kilo <input type="radio"/> Pound	650.00	555.00

CHARGES	Revised/Correct		Original/Incorrect	
	Prepaid	Collect	Prepaid	Collect
Currency	AUD			
Weight Charges	2850.00	0.00	2003.55	0.00
Valuation Charges	0.00	0.00	0.00	0.00
Commission	142.50			0.00
Incentive	0.00			0.00
Net/net Amount	2707.50		2003.55	
Total Other Charges Due Agent	0.00	0.00	0.00	0.00
Total Other Charges Due Airline	350.00	0.00	350.00	0.00
Total payable to airline ex. VAT	3057.50		2353.55-	
VAT/TAX	<input type="checkbox"/>		<input type="checkbox"/>	0.00
Reason for Correction	Incorrect weight on lodged freight docs			
Reason for rejection (optional)				

After entering all the “Revised” details, click the **Calculate** button to view the revised and check the value owed to or from the Agent.

When the entry is complete and correct, click “Save” button at top of screen.

If an error is made when entering the correction, click on the BACK button at the top of the correction form and start the correction again.

After clicking “Save”, the message: **“Correction was successfully updated.”** will show at the top of the screen.

Correction was successfully updated.

New Back

CorrectionRequest Form

Status: New Number: 01

Agent's code: 0230013 - 2623 Airline's Code: 998

AWB No.: 51434832 Origin: PER Destination: LHR Date of AWB Issue: 2005-12-03

Air Waybill weight and/or charges have been corrected/added as follows:

Weight Unit	Revised/Corrected Weight	Original/Incorrect Weight
<input checked="" type="radio"/> Kilo <input type="radio"/> Pound	650.00	792.00

CHARGES	Revised/Correct		Original/Incorrect	
	Prepaid	Collect	Prepaid	Collect
Currency	AUD			
Weight Charges	2005.21	0.00	2534.40	0.00
Valuation Charges	0.00	0.00	0.00	0.00
Commission		0.00		0.00
Incentive		0.00		0.00
Net/net Amount	2005.21		2534.40	

Where an Agent has submitted the online correction, the correction must be Accepted, Rejected, Amended or Airline Handled by the Airline on which the Correction has been requested. **Agents cannot "Accept" their own correction.** Only the Airline may "action" an online correction. An Agent may only "request" or Add a correction, but the responsibility for the acceptance or rejection of all online corrections lies entirely with the Airline concerned.

Additionally, Airlines have the option to limit the number of their Users that can Accept (Approve) a correction. Corrections entered by a User that is not authorized to "Approve Corrections" will move to "Pending" in the same manner as a correction entered by an Agent. These must then Accepted by an authorized User.

Contact your Customer Service Centre or Cargo Manager to check or amend the status for your Airline Users.

Accepted by: 1 - identifies a correction that has been Auto Approved by the system (1 is the system UserID)

Note: any correction entered by an Airline will automatically be approved, provided the User entering the Correction is authorised to Approve Corrections. The Correction will then be processed in the next processing cycle, either in a Billing Period or Correction Period.

4.1.1 Add Supporting Document

After Saving the Correction Requests, a supporting document may be attached to the Correction by Agents or Airlines

The screenshot shows a web browser window with the URL <https://casslink...> and a tab titled 'Correction - Iata CASS Syst...'. The browser's address bar shows the path <https://casslink...>. The page header features the IATA logo and navigation links: 'Sign out | Home | Help'. The user is logged in as 'User: Rod_Best' and the 'CASS operation' is set to 'INDIA'. A sidebar on the left lists various menu items: 'Input Services', 'Processing', 'Output Services', 'Correction Services', 'Master Files', 'Stock Management', 'User Maintenance', 'Toolbox', 'Airline Toolbox', 'Agent Toolbox', and 'IN - Tax'. The main content area has a 'Correction Form' tab and a 'Documents' tab. Below the tabs are buttons: 'Accept', 'Reject', 'Airline Handled', 'Amend', and 'Back'. A text field shows the file path 'C:\Users\BestR\Documents\Rod\CASSLink\Test Files\Correction - 8430' with a 'Browse...' button and an 'Upload' button. A note states 'Only PDF or JPG files are accepted.' Below this is a table with the following data:

DocumentName	UserType	DocumentType	UploadDate	Status
Correction test 1.pdf	IATA		2013-12-02 15:57:45	OK
Correction test 1.pdf	IATA		2013-12-02 15:57:29	OK

Process:

- Go to Add Correction and create the correction as per 3.1 above. (Where the Agent or Airline is attaching a supporting document, it is recommended that they use the Comments box to advise the presence of an attached document.)
- Save the Correction. Note that documents cannot be attached until the Correction has been "Saved".
- Select the Documents Tab
- Select "Browse" for file to be attached, then "Upload". Supported document formats are PDF or JPG. Documents that are too large may not be accepted for upload.

Multiple documents may be Uploaded to the Correction Request.

Where a Document has been added by the Airline or Agent when the Correction Request has been saved, the other party may attach additional documents that are then available for review.

Accept Airline Handled Select All Deselect All

By selecting the “Show All” button, all Corrections will be displayed. In the example above, there is a further filter to elect to display only “show on-line corrections”, thereby eliminating other correction processed by the Airlines in the form of DCM’s or CCA’s.

If further details are required about the Correction, click on the “Show” box. This will open the Correction document as entered by the Agent. This may be relevant when a Correction has been “Rejected” by the Airline.

The Correction Status may be:

Accepted:	Airline has accepted the correction request
Rejected:	Airline has rejected the correction request
Airline Handled:	Airline has accepted the correction request, but it will be handled via a CASS billing file (usually CCA or DCM).

Additional Information:

- **Entry** – This is the date the Correction request was entered by the Agent. Remember that corrections entered by Airlines are automatically approved when entered by an Approve Correction authorized User.
- **Estimated Value** – This is a guide only to the value of the Correction. This is a system calculation of the estimated net value of the correction. It is only estimated as the netting of the Original – Revised amounts may not include all values, taxes etc.
- **Sorting** – where a column heading is underlined, the column may be sorted by clicking on the header name. For example, to sort Corrections by Entry date, click Entry and the list will be sorted into date order, oldest first. Click again and the list will resort with newest first.

The sort feature exists anywhere in CASSLink where a column heading is underlined.

4.2.1 Acceptance

When a Correction is accepted by the Airline, the billing document will be automatically scheduled to processed in the next Billing Period. If a Correction Period is scheduled to run after acceptance but before the next Billing period, the Correction documents will be processed in the Correction Period.

4.2.2 Rejection

Where the Airline has Rejected the agent's request for a correction the Airline MUST enter a reason for rejecting the Correction.

4.2.3 Amend

Where a Correction request has been entered and the Airline agrees that an adjustment is due but disagree with the amount requested, the Airline user may choose to “Amend” the correction.

Amend is a two-part process:

1. The original Correction request as entered by the Agent (or non-authorised Airline user) is first Rejected. A Reason for Rejection must be entered.
2. A new Correction is then automatically opened, with the original details pre-populated in the Original/Incorrect fields. The Airline then enters the correct details and selects Save.

In View Corrections, the Correction will be seen as two entries – one Reject and one Accept

4.3 Auto-Approval of Corrections

Automatic Approval of corrections in *CASSLink* has been implemented as part of the changes and adoption of Resolution 801r and 801re in all CASS Operations.

Any Pending Corrections in *CASSLink* will be auto-approved by *CASSLink* under the following circumstances:

The Correction Request from the agent was entered on or before the Query Cut-Off Date (introduced into all CASS Reporting Calendars from 01 OCT 2009 in eligible CASS Countries)
The Airline does nothing to the Pending Correction request

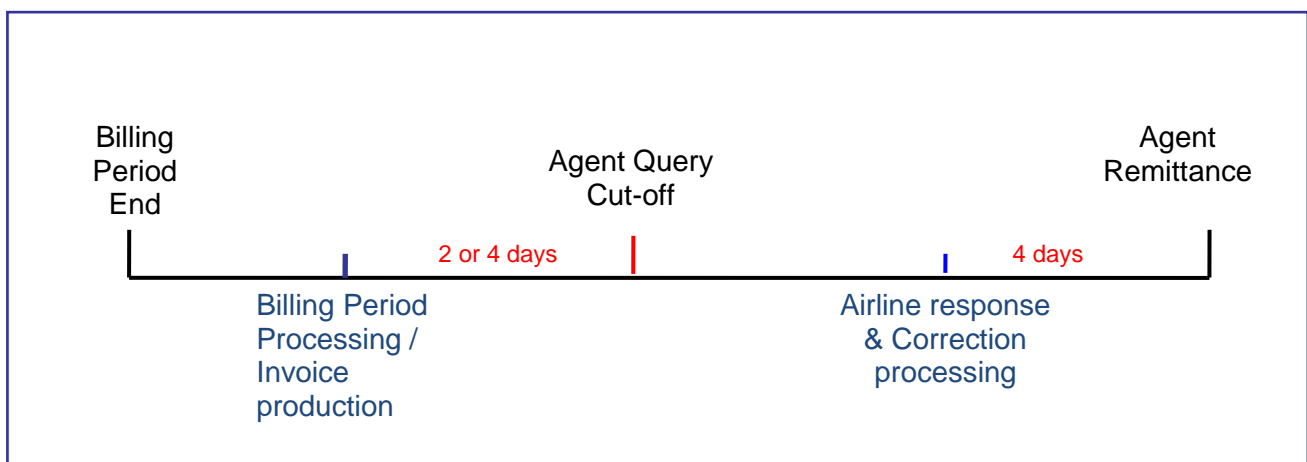

An Airline can select Accept, Reject, Amend or Airline Handled a Pending correction at any time. When one of these options is selected by the Airline, a Correction request is considered “Actioned” and auto-approval will not be applied.

If a Correction request is entered after the Query Cut-Off date, the system will not auto-approve it for the current Correction Period. It will however be auto-approved in the following Correction Period if no action is taken by the Airline.

If after reviewing an auto-approved Correction, the Airline determines that the Correction request was incorrect, the Airline may process a reversal (correction) into *CASSLink* at any time, taking into account “Aging” rules and CASS protocols.

For Airline Handled, the file containing the CCA/DCM should be loaded so that corrections are processed in the Correction Period.

A report showing all auto-approved correction is provided to Airlines as part of the PDF reporting.

4.4 Correction Periods

A Correction Period is a processing Period run specifically to correct billing errors. A Correction Period cannot be used to process AWB's that were not billed in the normal Billing Period. Only CCA's, DCM's or Online Corrections will be processed.

A Correction Period can be either a scheduled Period or an ad-hoc billing run whenever necessary to correct larger amounts. Only one Correction Period can be run per Billing Period.

A Correction Period **MUST** be run before the processing of the next Billing Period. In some cases, a Correction Period is scheduled to run on the same date as the next Billing Period. In these circumstances the Correction Period will always run before the Billing Period.

Only one (1) Correction Period may be run for each associated Remittance Period.

Important – When a Correction document is loaded subsequent to the Billing Period completion, the Correcting document will appear in *CASSLink* to be processed in the **next** Billing period. Part of the system process at the commencement of a Correction Period processing is to identify those correction documents that are eligible for processing in the Correction Period and placing them in the Correction processing.

4.4.1 Correction Period Processing

Correction Periods are scheduled as part of the monthly or bi-monthly billing cycle. There is an Agent Query Cut-off Date (Agent deadline for correction submission in relation to Auto Approval in the current Period only) and an Airline submission date i.e. cut-off date for a file or Online Correction to be loaded by the Airline into *CASSLink* before the Scheduled Processing date for the Correction Period.

Important – When a Correction document is loaded subsequent to the Billing Period completion, the Correcting document will appear in *CASSLink* to be processed in the **next** Billing Period. Part of the system process at the commencement of a Correction Period processing is to identify those correction documents that are eligible for processing in the Correction Period and placing them in the Correction processing.

4.4.2 Correction Period Reports

The reports for a Correction Period will update the associated Billing Period(s). Only the Airlines and Agents that are affected by correction documents will receive a new invoice report but all CASS Participants will receive a Billing Statement reflecting the total billed/invoiced for the Period.

The reports themselves will list the documents processed per carrier or agent as normal, but the accumulated totals and total amount owed will be cumulative with the Billing Period(s).

4.5 Correction Report

The Correction Report allows Airlines to download a report of Online Corrections entered, by Status – Accepted, Rejected, Airline Handled, Auto-Approved, Pending or All, for specified entry dates.

5. Airline Commission Payment Options

Commission payments in CASS

Within CASS and in most CASS Operations, the payment of commission by Airlines to agents is optional. Where commission is paid by the airline, there are different options within CASSLink to manage these payments. In CASSLink:

5.1 CASS Standard Commission rate

In the set-up of each CASS Operation, there is a standard commission % rate. In most operations, this is 5%, but in some CASS it may be different (check with your local Service Center).

When the Airline indicates in the AWB input record that Commission is to be paid (CASS Technical Specifications for AWM record – Loc 168), where no other details are entered, the CASS Standard Commission rate is applied.

5.2 Airline Commission Rate

Within CASSLink, an Airline can indicate a Commission % rate that is different to the standard to be paid to all their agents eg. 0%, 4%, 6% etc. This can be changed by your IATA Customer Service Centre on request.

5.3 Agent / Airline Agreement

CASSLink also offers the facility to differentiate the Commission % rate paid to different agents. Example:

- Standard % rate = 5%
- Agent – A = 4%
- Agent – B = 6%

5.4 No Commission

Airline can indicate that Commission is not to be paid in CASS at all.

5.5 Airline Defined rate or amount per AWB

Further to the set options within CASSLink, there is also the facility for Airlines to dictate the rate or amount of commission paid, within the AWM billing record.

In the current edition of the CASS Technical Specifications:

- Field 26 – Commission Percentage (Loc 152-155) – Airline can stipulate the % commission rate to be paid
- Field 27 – Commission (Loc 156-167) – Airline can stipulate the amount of commission to be paid
- Field 28 – Commission indicator (Loc 168) – Indication that commission is to be paid (N, Y (Blank = Yes))

Note – As in most input, where the airline indicates an amount or % in the input record, this is used for billing and overrides the system

calculation.

The screenshot shows a web browser window with the URL <https://casslink.iata...>. The page title is "Airline preferences Iata CAS...". The user is logged in as "User: Rod_Best" and the CASS operation is set to "UTOPIA".

On the left, there is a sidebar menu with the following items:

- Input Services
- Processing
- Output Services
- Correction Services
- Master Files
- Stock Management
- User Maintenance
- Toolbox
- Airline Toolbox
- Agent Toolbox

The main content area shows the "998-Utopian Airways" form. At the top, there is a dropdown menu for "998-Utopian Airways" and buttons for "New", "Save", and "Delete". Below this, there is a checkbox for "Active Only".

The form is divided into several tabs: "Office Address", "Additional Address", "Options", "Local Setup", "Stock Management", "Financial", "Invoice Info.", and "Memo". The "Office Address" tab is currently selected.

The "Office Address" tab contains the following fields:

- Prefix: 998
- Branch Code: (Optional)
- Airline Name: Utopian Airways *
- Address: Utopian Circuit *
- Visiting address:
- City: Utopia City Airport *
- Country: Utopia *
- Attention: Howard Hughes
- Phone: 12 98765430
- Fax:
- E-mail: utopianairways@utopian.ut
- SITA:
- VAT number:
- Cass startdate: 2012-01-01
- Cass enddate:
- GSA:
- No commission: ☐
- Commission: 0
- Standard Commission: 5 %
- Accept online: ☒
- Corrections:

A red box highlights the "Commission" field, which is set to 0, and the "Standard Commission" field, which is set to 5%.

At the bottom of the form, there is a note: "* = Presented on CASS Output".

The options 5.1 to 5.4 above must be set in the CASSLink Master Files by IATA. Please contact IATA Customer Service for these options to be applied in the system.

6. User Maintenance

6.1 Change Password

When an Airline User logs in to CASSLink for the first time they will be asked to change their password. At any time, Users may change their password manually.

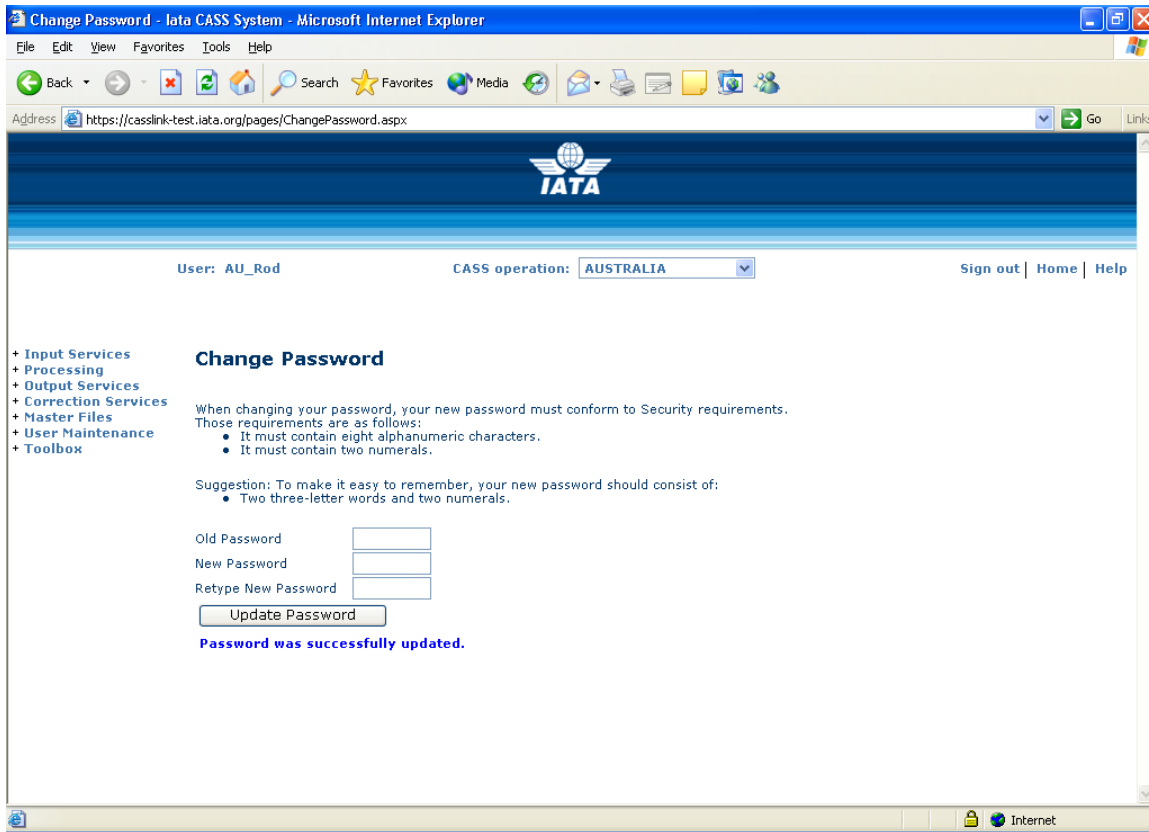

Procedure:

- Go to User Maintenance Menu;
- Select Change Password;
- Enter the “Old” password, then enter a new password twice. The new password must contain eight (8) alpha/numeric characters, with the password to contain at least 2 numeric characters.
- Click the “Update Password” button

If the User has failed to enter the Password in the correct format, or entered the Password incorrectly, one of the following error messages may be displayed:

The new Password and the Retyped New password are not identically.

The new password does not conform to Security requirements. (means that the new password does not contain eight (8) characters or at least 2 numeric characters)

When the new password has been correctly entered, the message –
Password was successfully updated
will be displayed.

It is the responsibility of each CASSLink User to ensure that Usernames and Passwords are secure, to ensure the confidentiality of their billing data.

6.2 Multi-Country/Operation Access

Where an Airline participates in multiple CASS Operations, Airline Users can have access to all operations from a single Username. For Example, Qantas in Sydney can view *CASSLink* operations and reports for its operations in NZ, AU, JP, GB, DE etc.

Global access depends on which entity is the CASS Participant.

- Where the Airline is the participant in the CASS, access will be granted automatically.
- Where the Airline is a participant in the CASS via a GSA and the GSA paid a joining fee they become the CASS participant. The carrier completes a form authorizing IATA to accept its documents submitted by the GSA for billing. In this case CASS would need instruction from the GSA regarding who gets copies of outputs and where settlement payments should be made.
- If the carrier joins CASS but their appointed GSA is the party submitting the data on their behalf, the carrier is the CASS participant and access to *CASSLink* will be granted to both parties.

For access to *CASSLink* countries other than the Head Office, contact your Customer Service Centre or Cargo Manager.

There is no limit to the number of Users an Airline may have in *CASSLink* (within reason). Further, because of menu options, it is recommended that individuals have their own Username, rather than sharing with another person.

6.3 Forgot Password

When a User has forgotten their password, the “Forgot Password” may be used to request a new user Password.

Login page Iata CASS System - Windows Internet Explorer

login

[Forgot Password?](#)

To create an account or to reset your password, please contact the IATA Customer Service Centre or your local Cargo Manager.

When you register at the CASS system, your personal information is kept private and secure. Please see our [privacy and security policy](#) for more information.

Local intranet 100%

When the Forgot Password is selected, the User is asked to enter their Username and email address. Both need to match the User profile stored in CASSLink.

Password Assistance - Iata CASS System - Windows Internet Explorer

Password Assistance

Please enter your username and email address.

User Name ZZ_998RB

Email Address rb@utopianairlines.com

Send New Password Close Reset

Local intranet 100%

When the details have been entered correctly, the new password is sent to the User email address. It is not displayed on the screen.

Windows Internet Explorer window titled "Password Assistance - IATA CASS System". The page has a blue header bar. The main content area is white and contains the following elements:

- Password Assistance** (Section Header)
- Please enter your username and email address.
- User Name: ZZ_998RB
- Email Address: rb@utopianairlines.com.ut
- Buttons: Send New Password, Close, Reset
- Message: **Your password has been successfully reset & sent to your email.**

The browser's address bar shows "Local intranet" and the zoom level is 100%.

When the details entered are incorrect, or do not match the database, the User must contact their Customer Service Centre to verify the information and receive a new Password.

Windows Internet Explorer window titled "Password Assistance - IATA CASS System". The page has a blue header bar. The main content area is white and contains the following elements:

- Password Assistance** (Section Header)
- Please enter your username and email address.
- User Name: ZZ_998RB
- Email Address: rb@utopianairlines.com
- Buttons: Send New Password, Close, Reset
- Message: **Username or email are incorrect. Please contact your Customer Service Centre at www.iata.org/customer-portal/Pages/ContactUs.aspx**

The browser's address bar shows "RecoverPassword.aspx" and the zoom level is 100%.

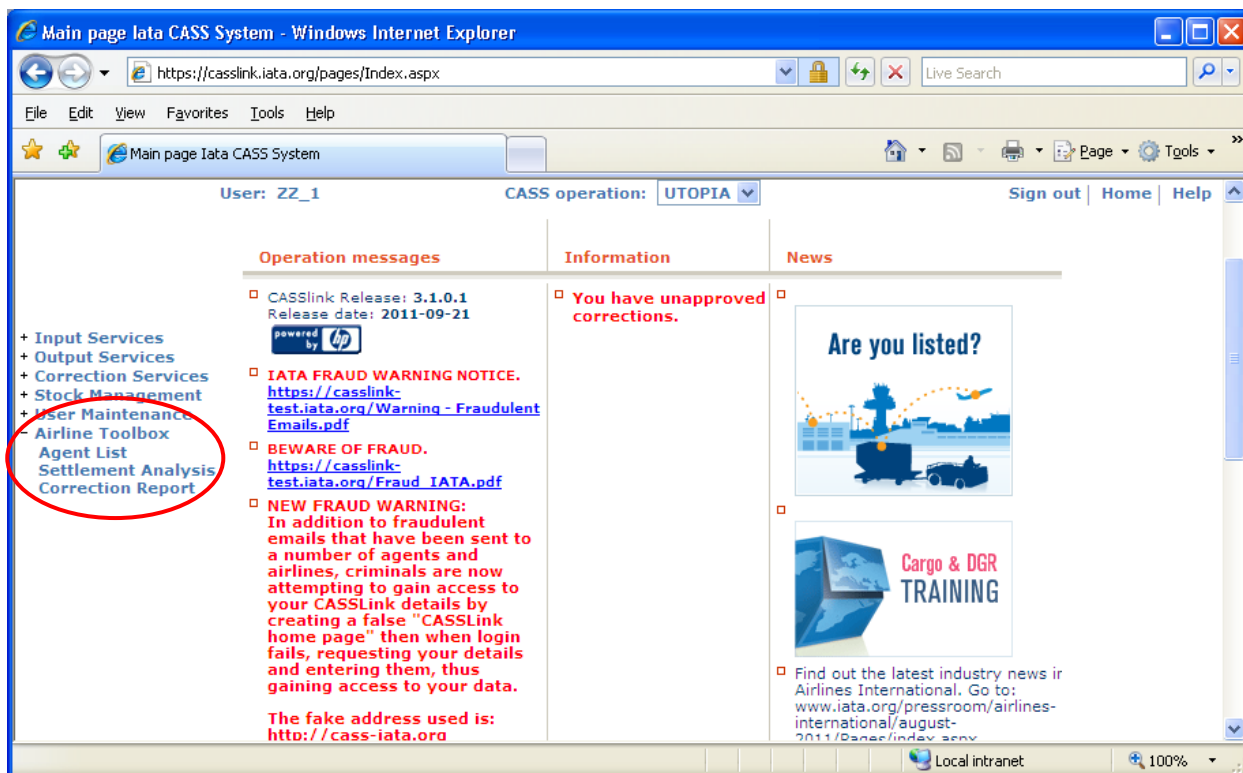

Possible problems preventing the use of this facility:

- Email address is incorrect in the database
- Browser has **Pop-ups blocked**. This prevents the entry screen from being displayed. Unblock Pop-ups using Tools - Internet Options and try again.
- Username is shared and new password is not communicated to all Users

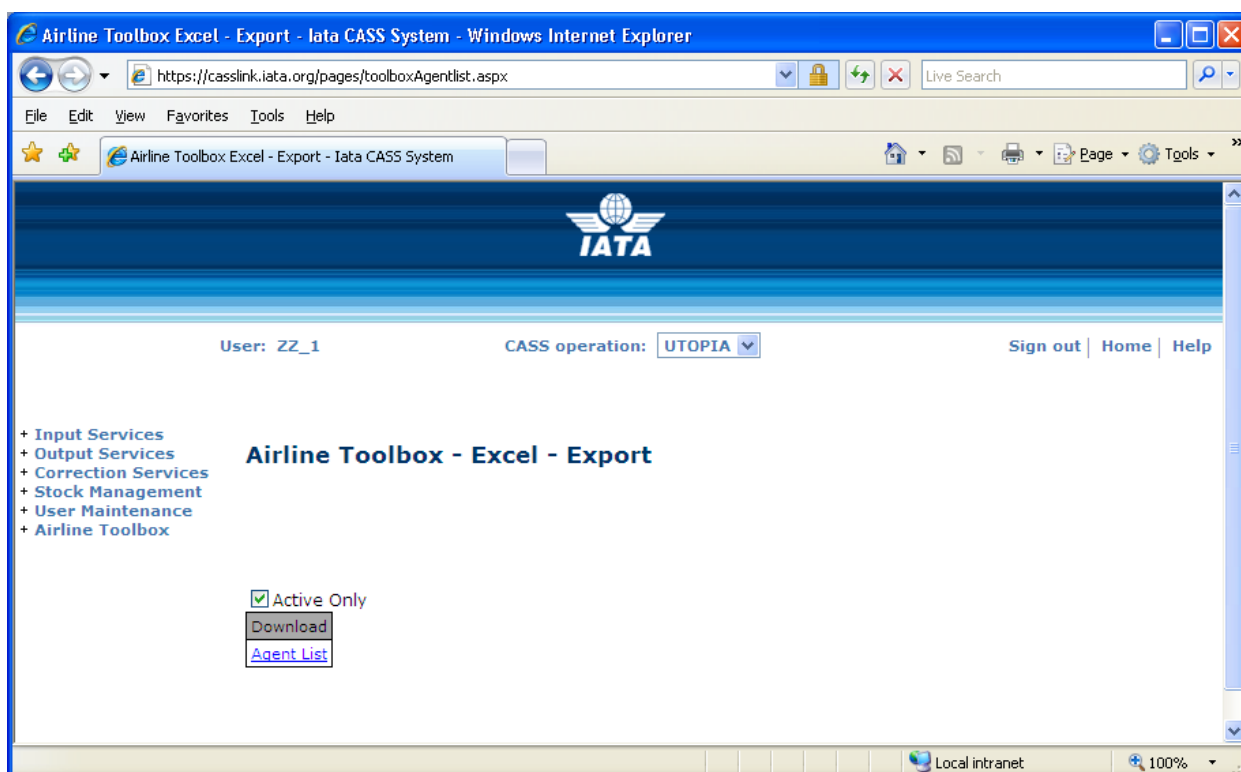

7. Airline Toolbox

Reports are now available to Airline Users via the Airline Toolbox. The reports available are:

- Agent List
- Settlement Analysis
- Correction Report
- ROE Report (where Exchange Rates are used in the CASS only)

7.1 Agent List

The Agent List options allow the User to receive an xls spreadsheet report of Agents in the CASS Operation that contains “Active Only” or, if the Active Only box is un-ticked, all agents, active and non-active.

The Agent List details include:

- CASS Country
- Agent code
- CASS Code
- Name
- Address details
- Telephone number
- VAT number

7.2 Settlement Analysis Reports

The Settlement Analysis reports offer a graphical view of data already provided in the Volume Notification reports included in the standard PDF reports.

The screenshot shows a web browser window titled "Top Airline Reports - Iata CASS System - Windows Internet Explorer". The address bar displays the URL "https://casslink.iata.org/pages/SettlementAnalysisReport.aspx". The browser's menu bar includes "File", "Edit", "View", "Favorites", "Tools", and "Help". The toolbar shows various icons for navigation and actions. The main content area is titled "Settlement Analysis" and contains the following fields and controls:

- Airline:** A dropdown menu currently showing "800-Airline 1".
- Period:** Two input boxes containing "2010" and "12", separated by a hyphen. Below these boxes, the text "YYYY REMITTANCE PERIOD(1 to 99)" is displayed.
- Report Type:** Two radio buttons, "Settled" (which is selected) and "Transactions".
- Format:** Two radio buttons, "PDF" (which is selected) and "XLS".
- Buttons:** Two buttons, "Export" and "Reset", are located at the bottom of the form.

The browser's status bar at the bottom indicates "Local intranet" and "100%".

The two reports available are:

- Settled
- Transactions

These can be downloaded as either PDF or xls for the Period.

The Period is the "end Period", with the reports comparing this Period with previous Periods.

7.3 ROE (Rate of Exchange) Report

Several CASS Operations use Rates of Exchange to convert the input (AWB) currency to the local or CASS reporting currency. Example - Operations where input is in USD, but reporting is in local currency.

Toolbox - Excel - Rate of Exchange - Export

Enter the date range to export exchangerate(s). Data format: (YYYY-MM-DD).

From: To:

The left screenshot shows the 'Excel - Rate of Exchange' window. The sidebar menu on the left has the following items: Input Services, Processing, Output Services, Correction Services, Master Files, Stock Management, User Maintenance, Toolbox, Airline Toolbox (circled in red), Agent List, ROE, Settlement Analysis, Correction Report, and Agent Toolbox. The main area of the window is titled 'Toolbox' and contains the text 'Enter the'.

The right screenshot shows the resulting Excel spreadsheet. The spreadsheet has the following columns: CASS Country Code, Currency Code, Exchange Date, and Exchange Rate. The data is as follows:

CASS Country Code	Currency Code	Exchange Date	Exchange Rate
ZZ	ZZD	2011-11-21	1.7723
ZZ	ZZD	2011-11-20	1.7723
ZZ	ZZD	2011-11-19	1.7723
ZZ	ZZD	2011-11-18	1.7775
ZZ	ZZD	2011-11-17	1.7772
ZZ	ZZD	2011-11-16	1.7649
ZZ	ZZD	2011-11-15	1.7649
ZZ	ZZD	2011-11-14	1.7547
ZZ	ZZD	2011-11-13	1.7547
ZZ	ZZD	2011-11-12	1.7547
ZZ	ZZD	2011-11-11	1.761
ZZ	ZZD	2011-11-10	1.7516
ZZ	ZZD	2011-11-09	1.7453

Choose the date range to download a spreadsheet of ROE entered to CASSLink.

Note that this report is only available where ROE is entered by the CASS operation into CASSLink. The report will not provide information on ROE entered by Airlines into individual AWB records.

8. Stock Management

For all information regarding *CASSLink* Stock Management, please refer to the *CASSLink* Stock Management Manual for Customer Service Centers and Airlines.

8.1 Stock Management Fact Sheet

CASSLink STOCK MANAGEMENT

Would you like an automated, web based solution to manage your Neutral AWB number allocations?

Would you like an on-line AWB audit system enabling you to confirm that all of your AWBs have been billed?

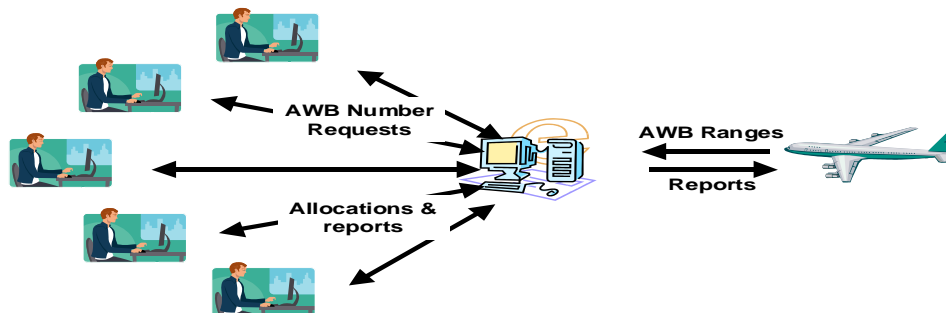

If the answer is YES, then the CASSLink Stock Management system is your solution

Introduction

The CASSLink Stock Management system is a value-added service fully integrated within CASSLink that allows Airlines to automate the allocation of AWB serial numbers to their approved Freight Forwarders.

The Stock Management service provides significant benefits for the forwarding community such as the ability to request stock allocation on-line 24 hours a day, 7 days a week. Forwarders and Airlines can also track usage and monitor used or unused allocations.

CASSLink AWB Stock Management System

Key Features

- Carrier determined maximum stock allowance for each Freight Forwarder
- On-line dynamic and flexible on-request reporting in PDF or XLS format
- Freight Forwarder on-line stock requests available 24x7
- A central "Global" number range option
- Separate Express AWB number range option
- Carrier pre-printed AWBs can also be allocated and tracked
- Auto-generated allocation messages (email) to nominated operations persons
- Consolidated stock allocation option - Single or multiple location allocations for Freight Forwarders
- "Low stock" warnings to Airlines
- On-demand reporting of unreported AWBs eg. Audit ...etc

System Benefits

For Airlines

- Improved AWB Audit functionality
- Automated allocation to Freight Forwarders - 24 x 7
- Retain complete control of access and allotment of AWB's
- "Global" range option
- Program accommodates pre-printed AWBs as well as Automated and Express number ranges

For Freight Forwarders

- Access to Airline stock 24 x 7
- Agency consolidated allocations
- On-line reporting of usage

Roles and Responsibilities

- CASS Operations activate Airlines and Freight Forwarders on the Stock Management module
- Freight Forwarders and Airlines nominate contact email addresses for stock allocation notifications (up to 3)
- Airlines input their own Stock AWB number master range
- Airlines define individual Freight Forwarder stock allocations, including maximum holding
- Freight Forwarders request stock allocations online
- Dedicated and specific user access can be assigned for the AWB management service
- Freight Forwarders and Airlines both receive email notification of allocation
- Airlines can close ranges or delete AWB's at any time

How do I subscribe?

Airlines

If you are an airline, contact your local Cargo Manager to activate you in *CASSLink*
Activation takes minutes, so you can start enjoying the benefits immediately

Freight Forwarders

If you are a Freight Forwarder speak to your carriers about activation

For more information go to: www.iata.org/ps/financial_services/casslink.htm

CASSLink

"Simplifying the business of Air Cargo"

Glossary of Terms

Agent	IATA Accredited Cargo Agent (Freight Forwarder)
AWB	Air Waybill - the document made out by or on behalf of the shipper which evidences the contract between the shipper and carrier(s) for carriage of goods over routes of the carrier(s).
Billing Period	The Period for which AWB documents are being processed in CASS. There may be one or two Billing Periods for a single Remittance Period
CASS	Cargo Accounts Settlement System
CASS Associate	Freight Forwarder sponsored by a CASS Airline to join the CASS program
CASSLink	Global processing system used by IATA for processing Airline billing documents.
CCA	Charges Correction Advice - the document used for the notification of changes to the transportation charges and/or other charges and/or the method of payment.
Charges Collect	Equivalent to the term 'freight collect' or 'charges forward', means the charges entered on the Air Waybill for collection from the consignee.
Correction document	See CCA or DCM
Correction Period	An additional processing Period used to correct documents in a previous Billing Period. Only Correction documents (CCA, DCM or Online Correction) are processed in a Correction Period
DCM	Debit Credit Memo – Correction document used to amend Net/Net sales
Remittance	Payment by Agents to CASS for payment of CASS Billing of AWB's, CCA's & DCM's
Reporting Timetable	Timetable of events usually published by CASS before the start of a new year to identify key dates for report production, Agent remittance and Airline settlement.
SCU	Standard Charging Unit ie. AWB or correction document processed in CASS
Settlement	Payment to Airlines by CASS
Upload	The process used by Airlines to enter electronic billing files into CASSLink each Billing Period
Username	Log-in identification to access CASSLink

Appendix A – AWB Data Capture Software

CASS AWB Data Capture Software

For Airlines and GSA's that do not have an accounting system that is able to produce CASSLink billing files, CASS has produced an AWB Data Capture programme that will enable the capture and creation of billing data for upload into CASSLink.

This software is free.

There is now a new "Windows" version of the CASS AWB Data Capture software. This replaces the DOS Data Capture system.

Contact your Cargo Manager for more details or to get a free copy of the software and the User Manual.

Appendix B – Frequently Asked Questions

- Q. What is the CASSLink website address?
- A. <https://casslink.iata.org>. Don't forget the **https**, as this is a *Link* to a secure website.
- Q. I have forgotten my password, can you tell me what it is?
- A. CASS/Cargo office staff cannot see what your password is. They can reset and create a new password for you, but cannot see the current one.
- Q. I have loaded my billing file and it has the wrong header or period end dates. Will it be processed? How do I find it to "Load" it after Validation?
- A. Yes. CASSLink does not process documents based on the file Header Record. Documents are processed based on the Execution Date of the AWB. If you cannot find the file you have loaded, change the search dates to include the Header date. Then the Validated file can be viewed and Loaded.
- Q. I didn't get my report. Can you resend them to me?
- A. No. All Airlines have access to CASSLink and can login at any time and retrieve any reports that you didn't receive.
- Q. My Head Office wants access to CASSLink reports in other countries. Can they access my Airline Output from their Username login?
- A. Yes. One of the features of CASSLink is that it is a global system. Airline Head Offices can have access to their reports worldwide. Contact your Cargo Manager to arrange these global links.
- Q. What reports are available?
- A. CASSLink standard reporting format is PDF.
HOT or text-file reports are available that are used for account reconciliation.
XLS spreadsheet reports are also available.
Contact your Cargo Manager to activate the HOT or XLS report options.
- Q. What do the 2-letter codes on the CASSLink Invoice/Adjustment report mean?
- A. **AD** - Add Record (used of CCR/DCR record line)
DL - Deletion Record (used for CCO/CCO record line)
NC - No Commission paid on Weight/Valuation Charge
LT - Late Submission (AWB Execution Date in previous Billing Period)
SR - Service AWB (system will process the shipment even if no weight charge is shown)
VD - Voided AWB

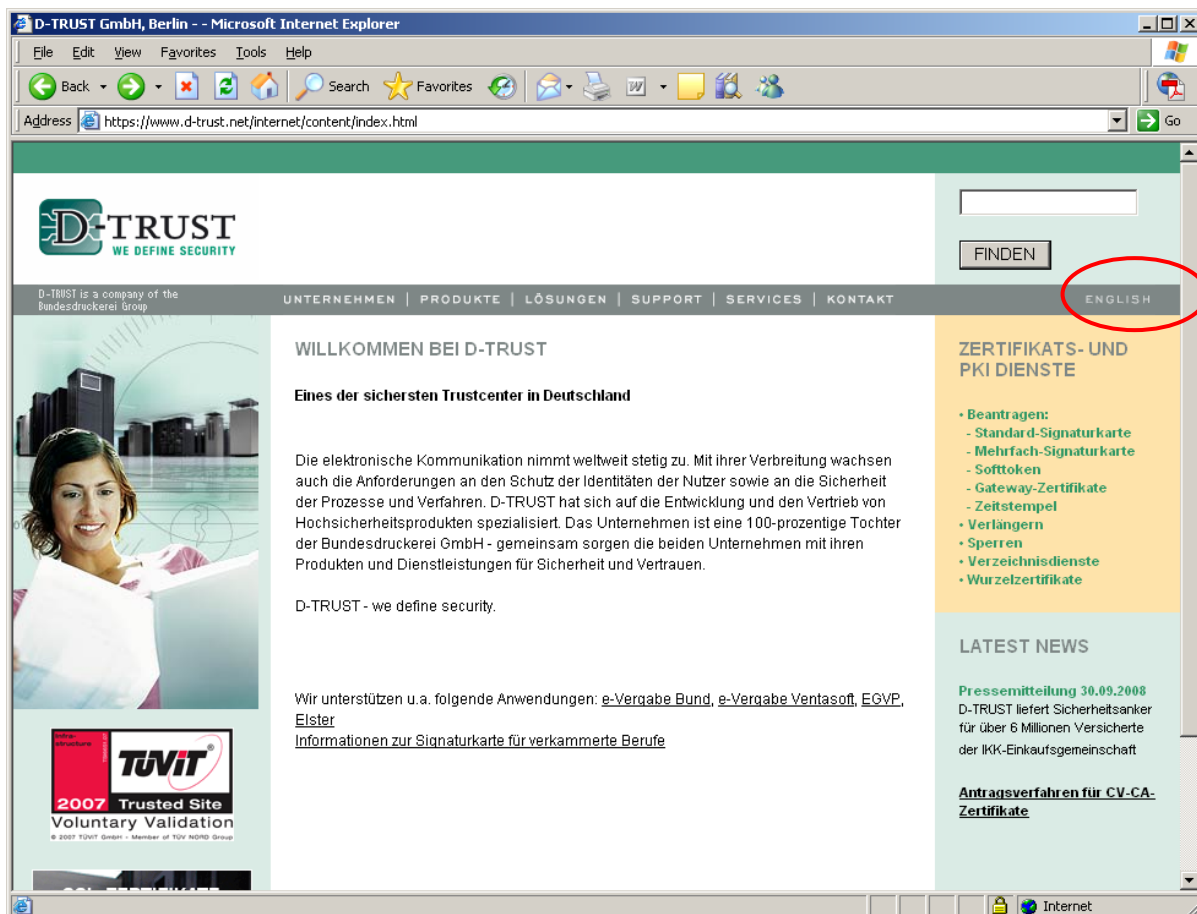

Appendix C – Trust Certificates

Loading Trust Certificates Into Your Adobe Viewer Application

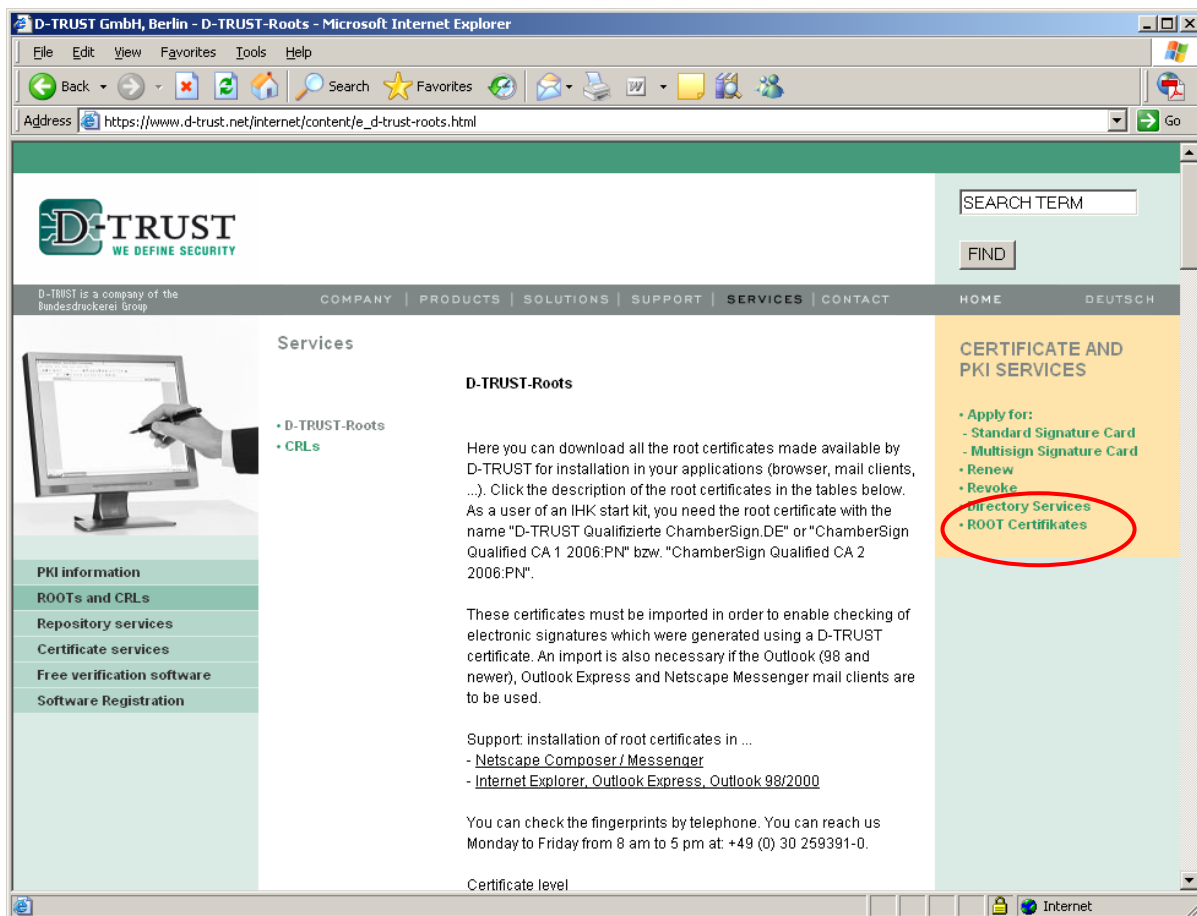

For a number of EU countries, it is a requirement of EU Directive 115 that all CASSLink invoices be digitally signed. The following instructions allow invoice recipients to verify the signatures embedded in the CASSLink PDF Invoice documents. Signature verification requires Adobe Reader version 8.0 or later.

Download the certificates from the D-Trust website by going to the www.d-trust.net

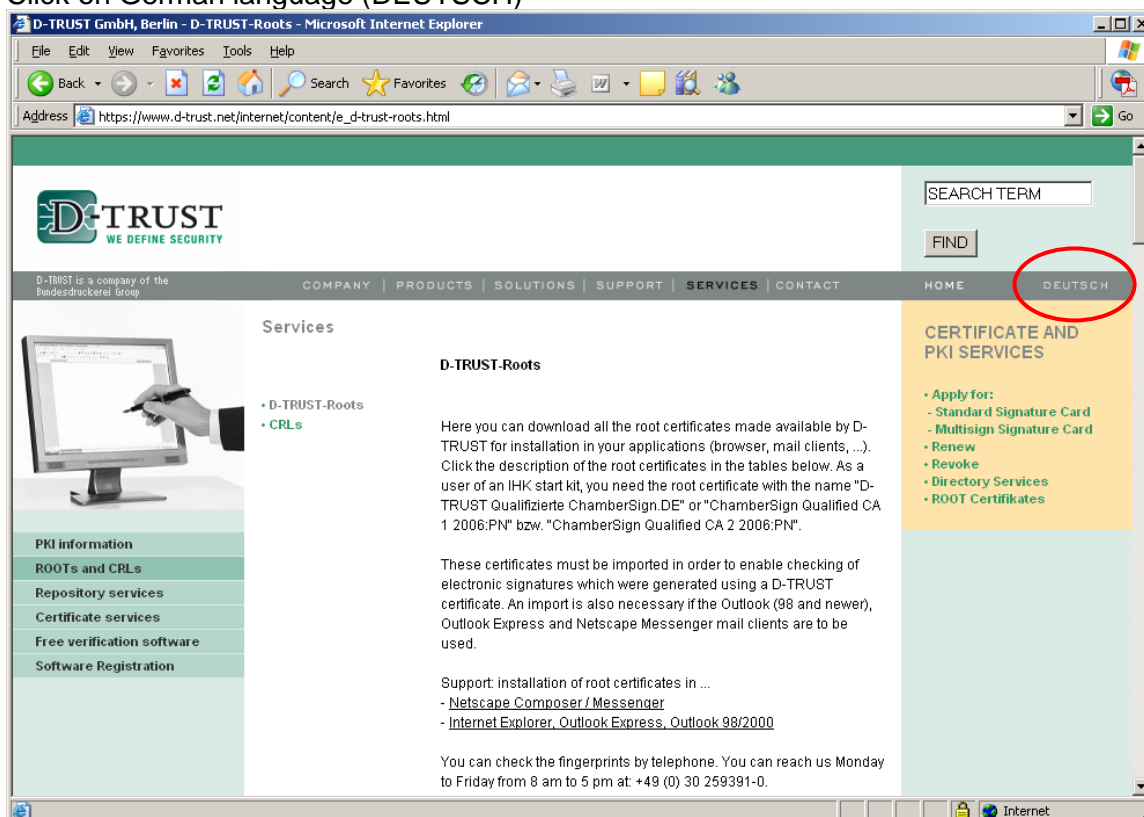

Choose the English language (top right hand corner)

Click on "ROOT Certifikates" (right hand side of page)

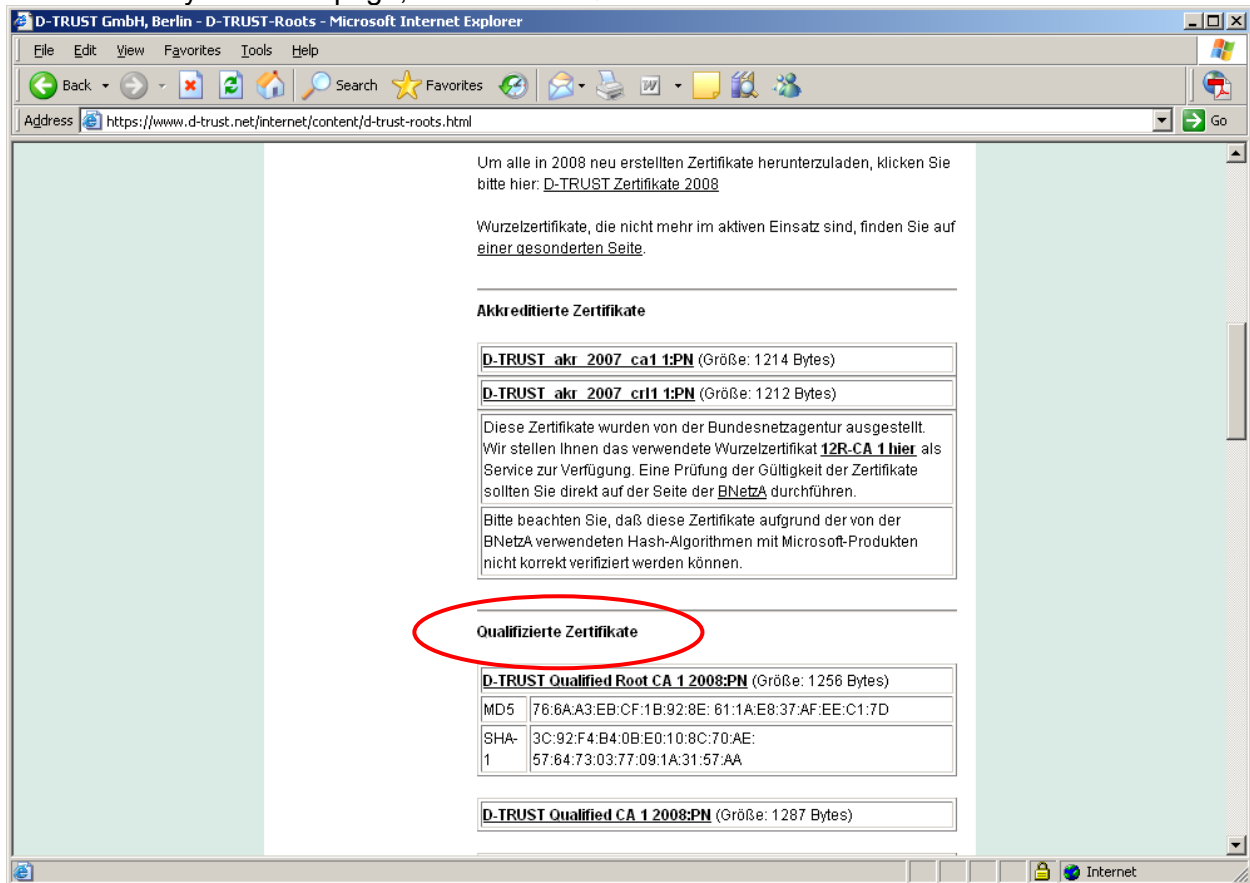

Click on German language (DEUTSCH)

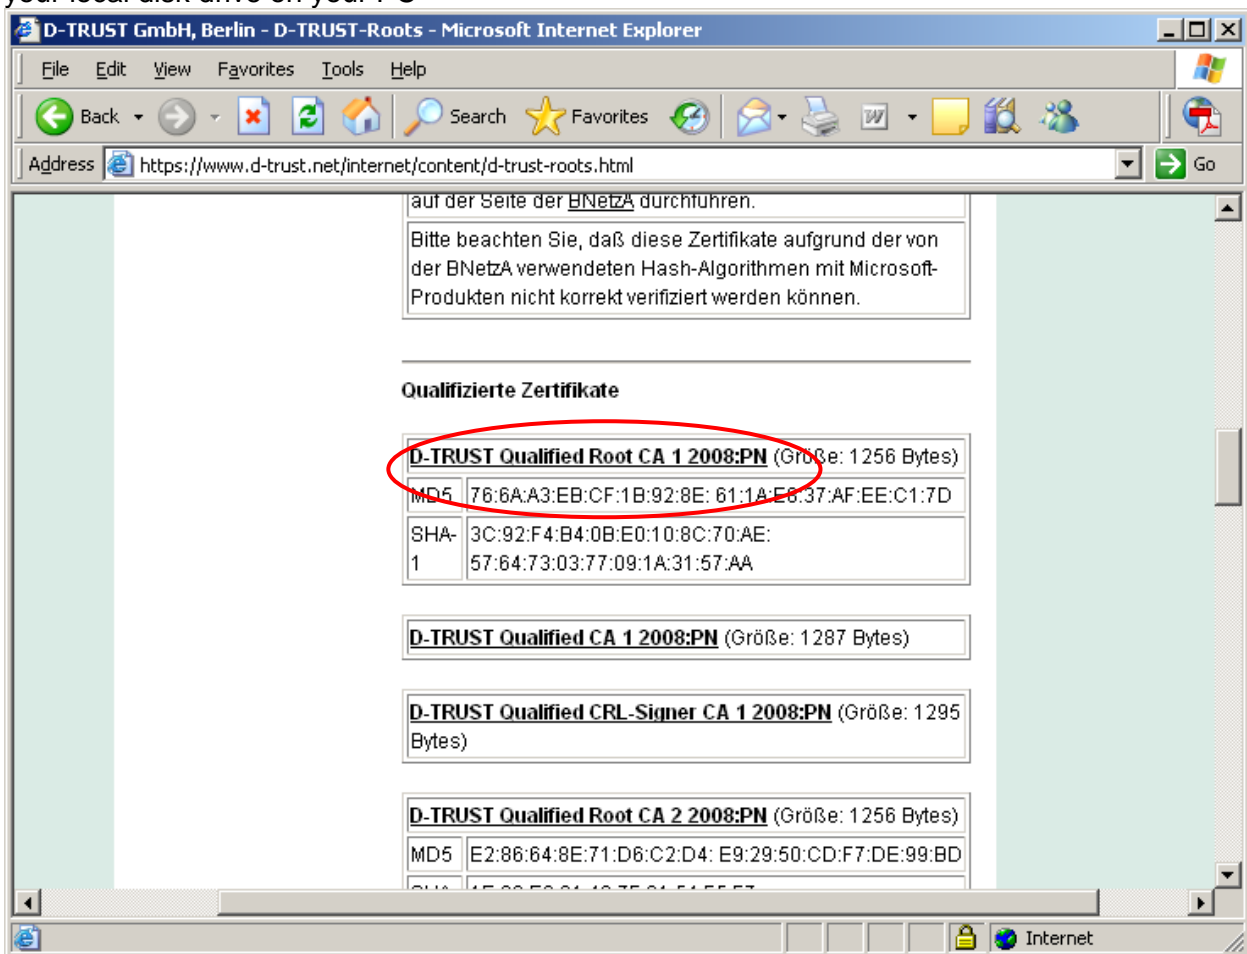

(You need to go back to Deutsch as the correct certificates are not visible in English)

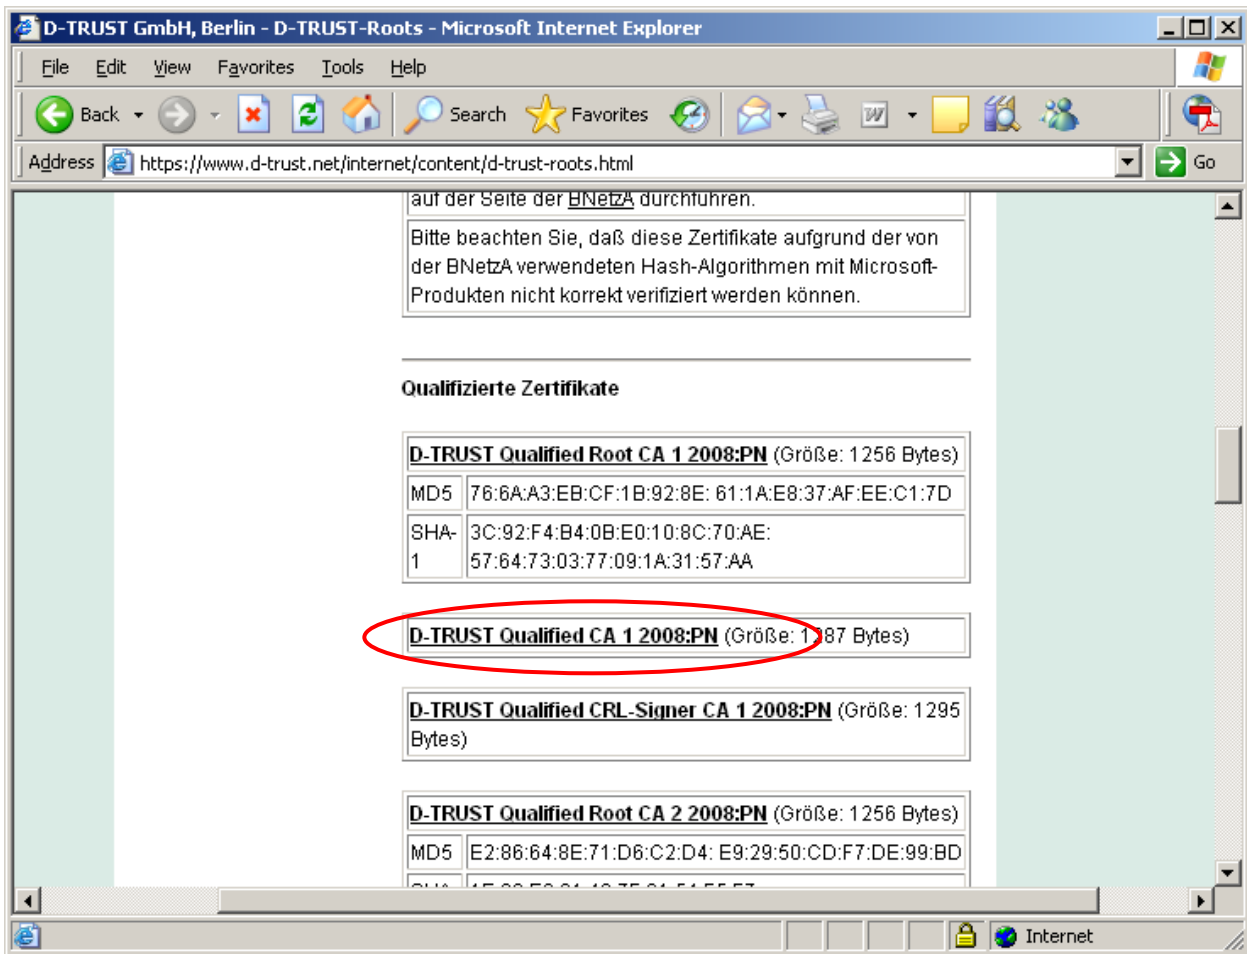

About half way down the page, click on the “Qualifizierte Zertifikate” link

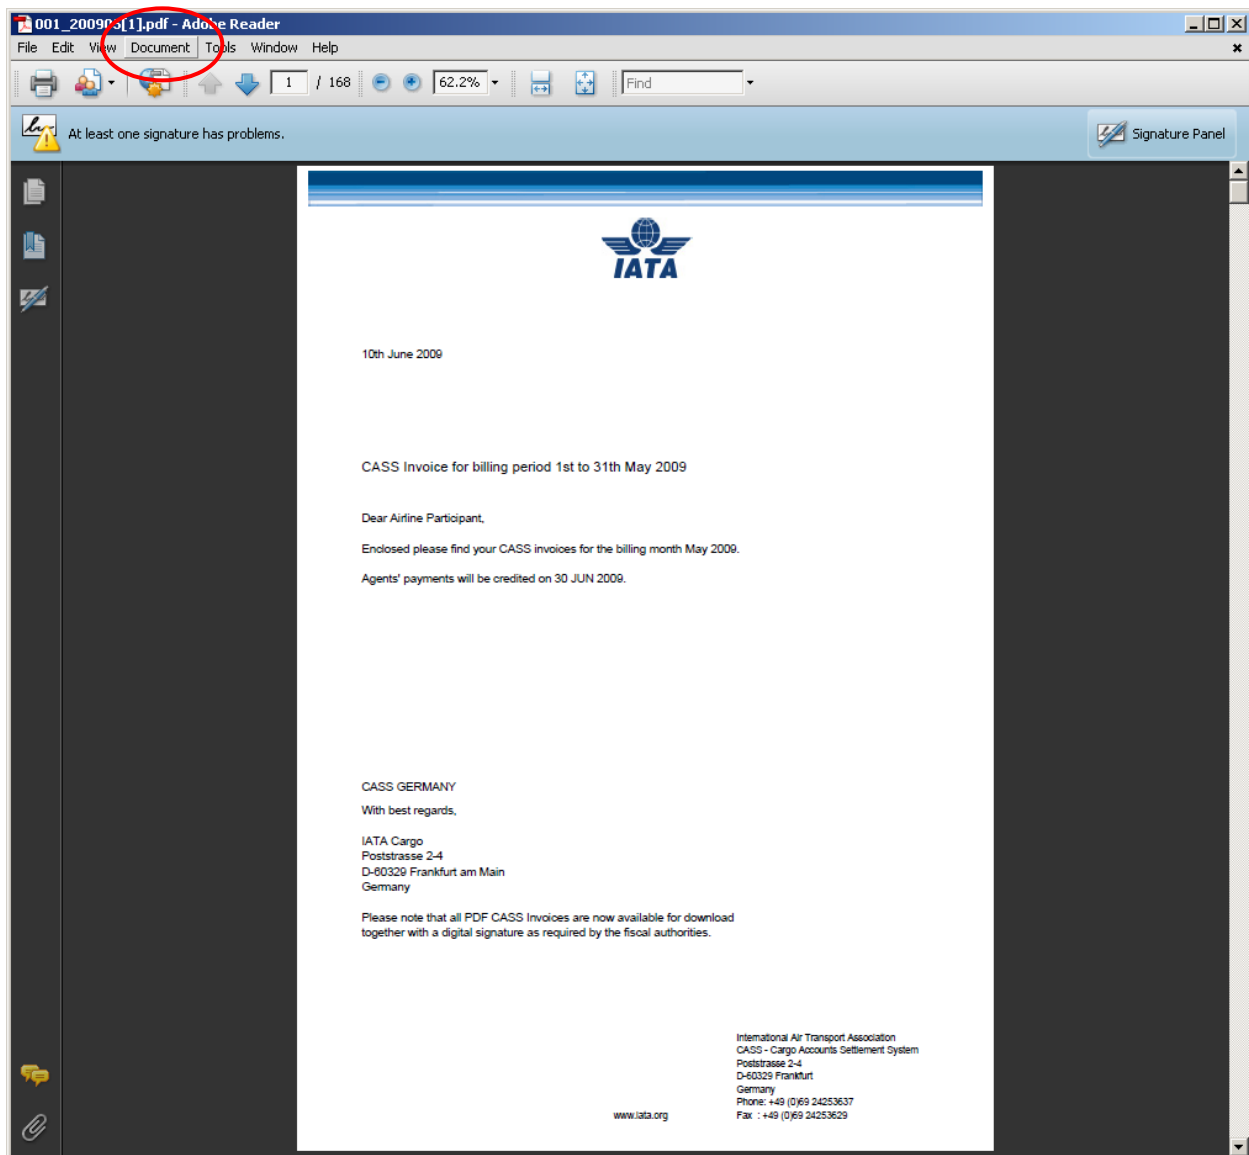

Click on the “**D-TRUST Qualified Root CA 1 2008:PN**” link to download the certificate and save to your local disk drive on your PC

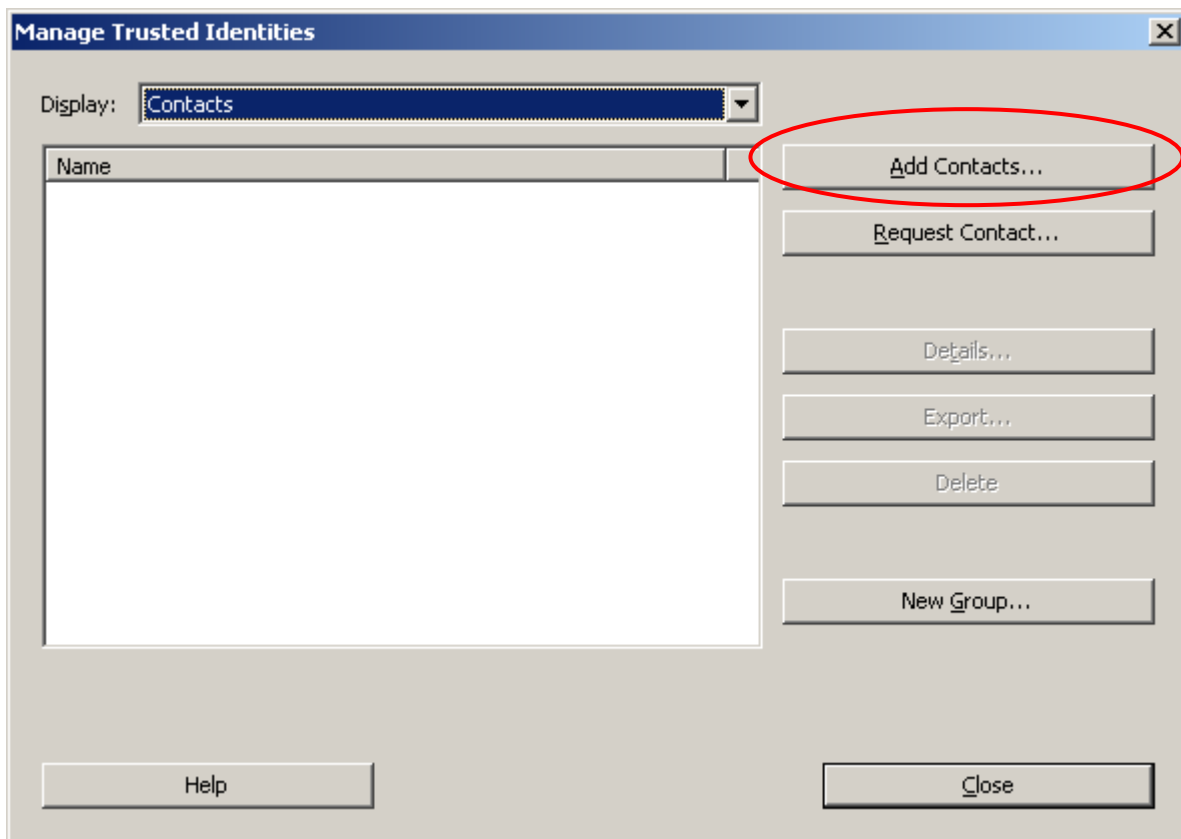

Click on the “**D-TRUST Qualified CA 1 2008:PN**” link to download the certificate and save to your local disk drive on your PC

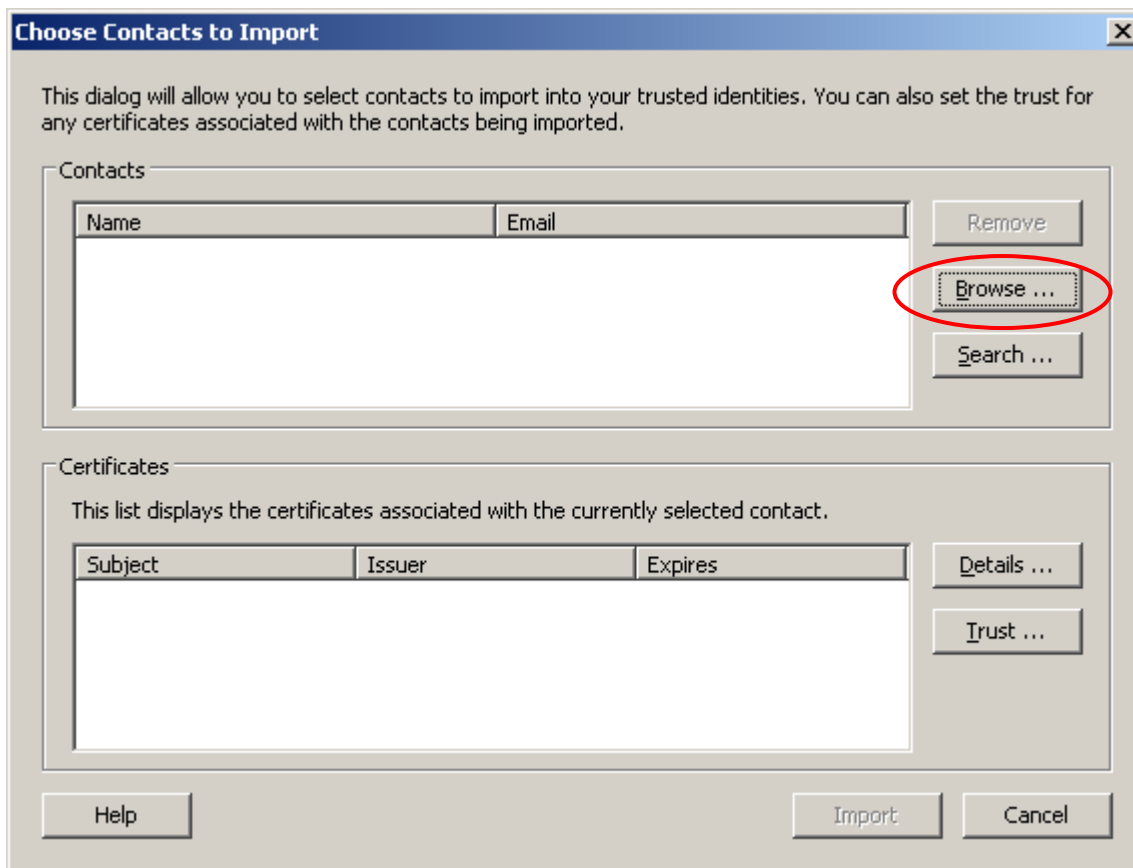

Within the Adobe Reader (open your signed PDF document), from the main menu along the top of the window, select “Document – Managed Trusted Identities...”

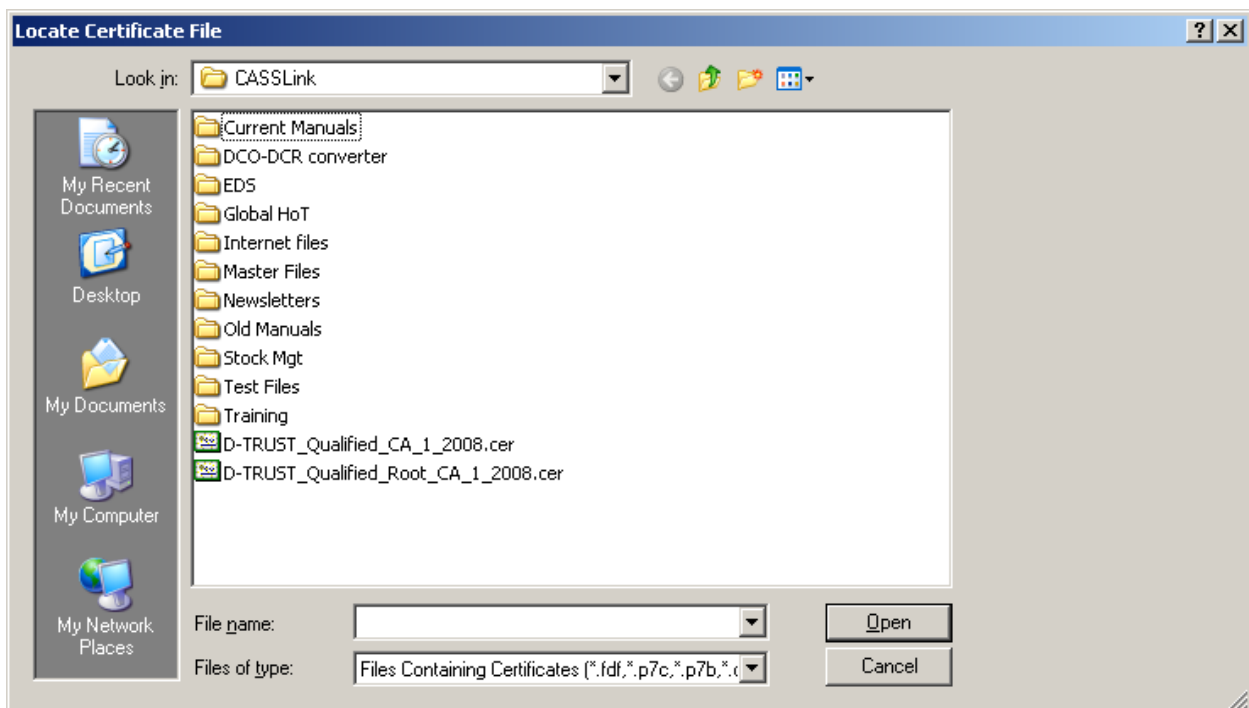

Click on the “Add Contacts...” button

Click on the “Browse...” button

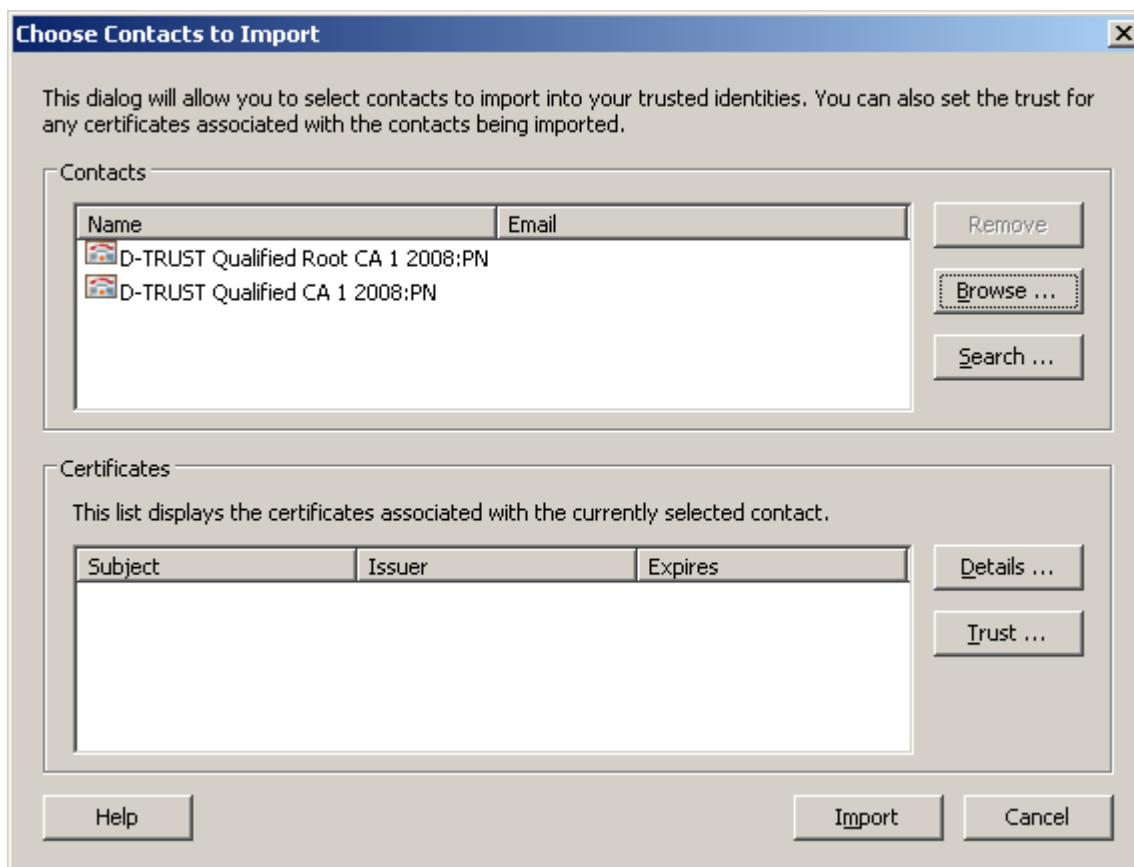

Browse to the location where the certificate files were saved to on your local disk drive

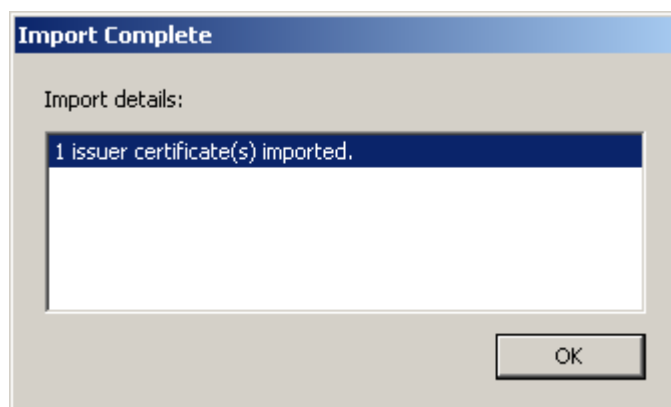

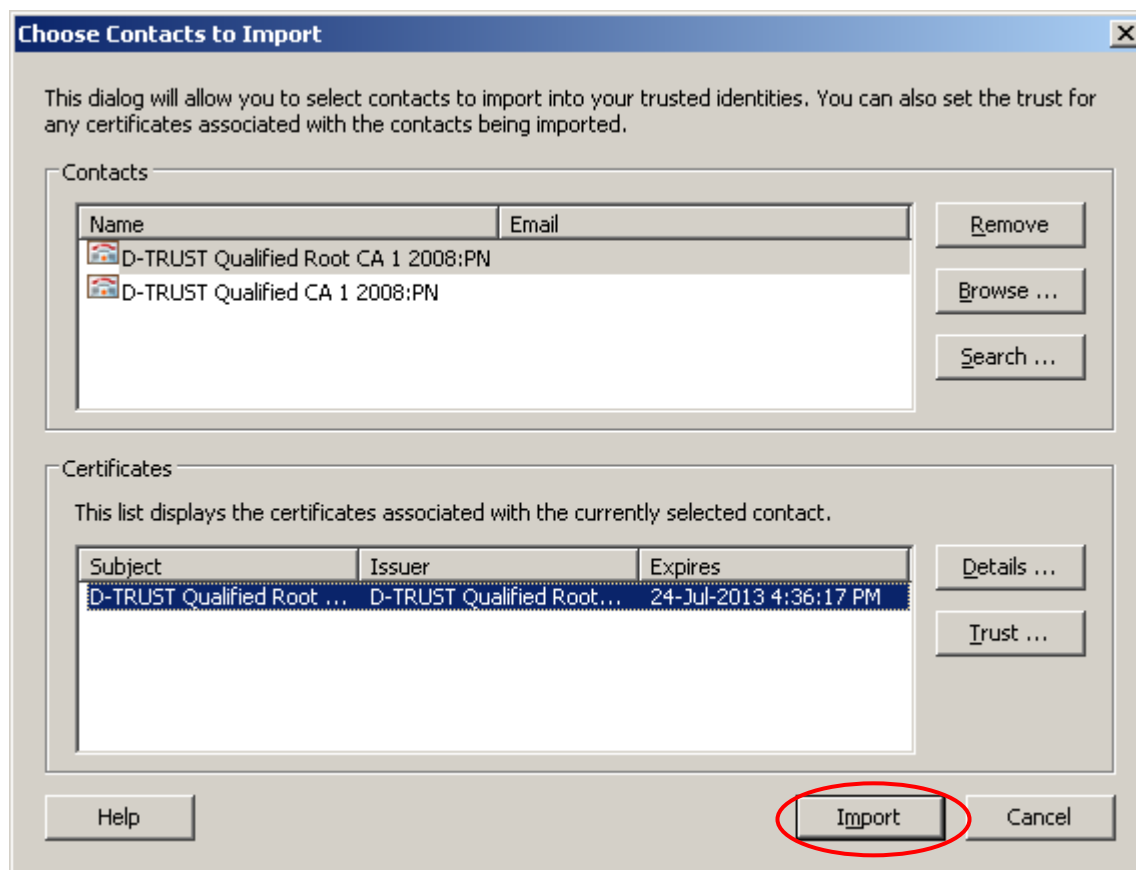

Select D-TRUST_Qualified_Root_CA_1_2008.cer and click on the “Open” button. Then repeat for D-TRUST_Qualified_CA_1_2008.cer.

There are now two Certificates in the Contacts box.

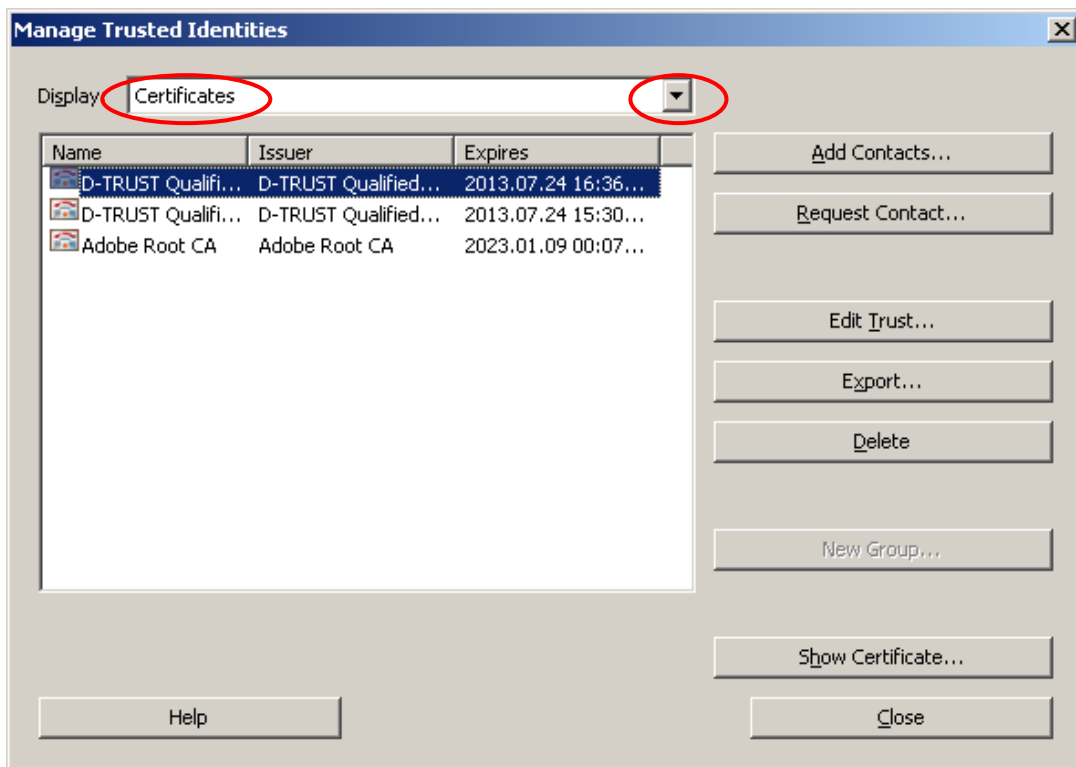

Select the entry in the Contacts pane and then click on the “Import” button

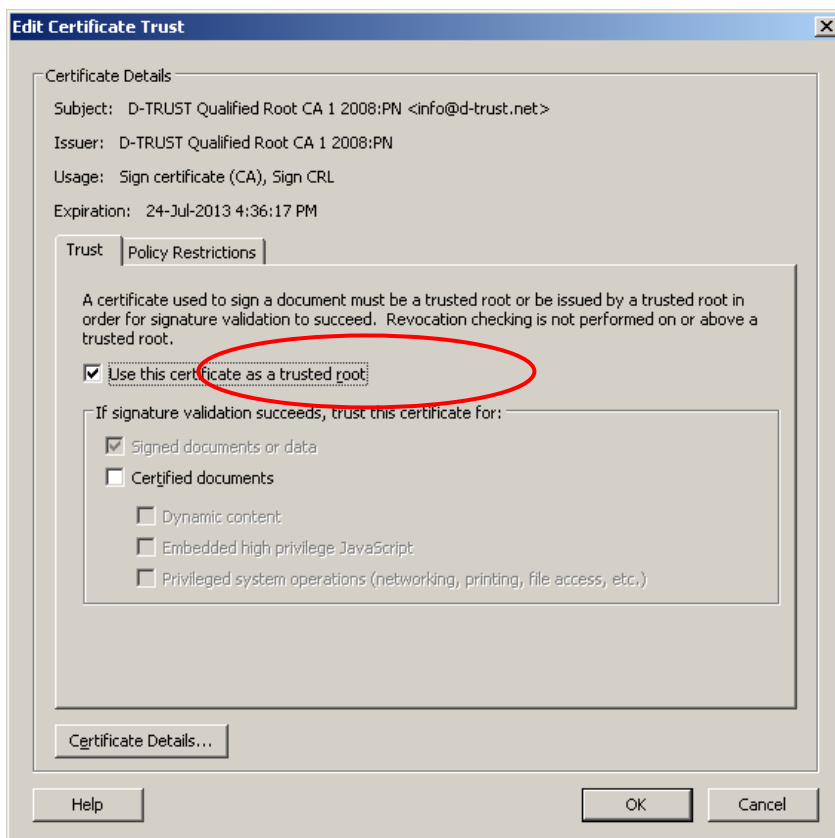

Repeat for the second of the certificate files saved to your local disk drive

Go to Document, then “Manage Trusted Identities” window pane, select the “Display” drop down menu near the top, and select “Certificates” from the drop down list

You will now see the two certificates you have imported. Select one of the certificate entries you've imported from the list and click on the “Edit Trust” button.
Select “Signatures and as a trusted root” and “Certified Documents”
Repeat for the other certificate you imported

Now that the certificates have been imported and trusted, you can validate the signature for the signed document by clicking on the signature icon down the left hand side of the document to reveal the signature. Right mouse click on the signature (“Signed by D-Trust SDS <NN>:PN”) and select “Validate Signature” from the drop down list

Once validated, a green tick should appear against the signature and the text “Signature is valid:” should appear below the signature
